

DISCLAIMER

The following is a preliminary report of actions taken by the House of Delegates at its 2016 Interim Meeting and should not be considered final. Only the Official Proceedings of the House of Delegates reflect official policy of the Association.

AMERICAN MEDICAL ASSOCIATION HOUSE OF DELEGATES (I-16)

Report of Reference Committee J

Candace E. Keller, MD, Chair

1 Your Reference Committee recommends the following consent calendar for acceptance:

2
3 **RECOMMENDED FOR ADOPTION**

- 4
5 1. Council on Medical Service Report 1 - Infertility Benefits for Veterans
6 2. Council on Medical Service Report 3 - Providers and the Annual Wellness Visit
7 3. Council on Medical Service Report 5 - Incorporating Value into Pharmaceutical
8 Pricing
9 4. Resolution 802 - Eliminating Fail First Policy in Addiction Treatment
10 5. Resolution 807 - Pharmacy Use of Medication Discontinuation Messaging
11 Function

12
13 **RECOMMENDED FOR ADOPTION AS AMENDED**

- 14
15 6. Council on Medical Service Report 2 - Health Care while Incarcerated
16 7. Council on Medical Service Report 4 - Concurrent Hospice and Curative Care
17 in lieu of
18 Resolution 812 - Enact Rules and Payment Mechanisms to Encourage
19 Appropriate Hospice and Palliative Care Usage
20 8. Council on Medical Service Report 6 - Integration of Mobile Health Applications
21 and Devices into Practice
22 9. Council on Medical Service Report 7 - Hospital Discharge Communications
23 in lieu of
24 Resolution 818 - Improving Communications Among Health Care Clinicians
25 10. Resolution 804 - Parity in Reproductive Health Insurance Coverage for Same-
26 Sex Couples
27 11. Resolution 808 - A Study on the Hospital Consumer Assessment of Healthcare
28 Providers and Systems (HCAHPS) Survey and Healthcare Disparities
29 12. Resolution 809 - Addressing the Exploitation of Restricted Distribution Systems
30 by Pharmaceutical Manufacturers
31 13. Resolution 810 - Medical Necessity of Breast Reconstruction and Reduction
32 Surgeries
33 14. Resolution 814 - Addressing Discriminatory Health Plan Exclusions or
34 Problematic Benefit Substitutions for Essential Health Benefits Under the
35 Affordable Care Act

1 15. Resolution 815 - Preservation of Physician-Patient Relationships and Promotion
2 of Continuity of Patient Care

3

4 **RECOMMENDED FOR REFERRAL**

5

6 16. Resolution 805 - Health Insurance Companies Should Collect Deductible From
7 Patients After Full Payments To Physicians

8

9 **RECOMMENDED FOR REFERRAL FOR DECISION**

10

11 17. Resolution 811 – Opposition to CMS Mandating Treatment Expectations and
12 Practicing Medicine

13 18. Resolution 813 - Physician Payment for Information Technology Costs

14 19. Resolution 816 - Support for Seamless Physician Continuity of Patient Care

15

16 **RECOMMENDED FOR NOT ADOPTION**

17

18 20. Resolution 806 - Pharmaceutical Industry Drug Pricing is a Public Health
19 Emergency

20 21. Resolution 820 - Retrospective Payment Denial of Medically Appropriate Studies,
21 Procedures and Testing

22

23 **RECOMMENDED FOR REAFFIRMATION IN LIEU OF**

24

25 22. Resolution 803 - Reducing Perioperative Opioid Consumption

26 23. Resolution 817 - Brand and Generic Drug Costs

Existing policy was reaffirmed in lieu of the following resolutions via the Reaffirmation
Consent Calendar:

- Resolution 801 - Increasing Access to Medical Devices for Insulin-Dependent Diabetics
- Resolution 819 - Nonpayment for Unspecified Codes by Third Party Payers

The following resolution was recommended against consideration:

- Resolution 821 - Support the ONE KEY QUESTION® Initiative to Improve the Discussion of Pregnancy Intention, Promote Preventive Reproductive Health Care and Improve Community Health Outcomes by Helping Women Prepare for Healthy Pregnancies and Prevent Unintended Pregnancies

1 (1) COUNCIL ON MEDICAL SERVICE REPORT 1 -
2 INFERTILITY BENEFITS FOR VETERANS

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends
7 that the recommendations in Council on Medical Service
8 Report 1 be adopted and the remainder of the report be
9 filed.

10
11 **HOD ACTION: Council on Medical Service Report 1**
12 **adopted.**

13
14 Council on Medical Service 1 recommends that our AMA support lifting the
15 congressional ban on the Department of Veterans Affairs (VA) from covering in vitro
16 fertilization (IVF) costs for veterans who have become infertile due to service-related
17 injuries; encourage interested stakeholders to collaborate in lifting the congressional ban
18 on the VA from covering IVF costs for veterans who have become infertile due to
19 service-related injuries; encourage the Department of Defense (DOD) to offer service
20 members fertility counseling and information on relevant health care benefits provided
21 through TRICARE and the VA at pre-deployment and during the medical discharge
22 process; and support efforts by the DOD and VA to offer service members
23 comprehensive health care services to preserve their ability to conceive a child and
24 provide treatment within the standard of care to address infertility due to service-related
25 injuries.

26
27 Testimony on Council on Medical Service Report 1 was unanimously supportive. A
28 member of the Council introduced the report and stated that, while legislation adopted in
29 October 2016 allowing the VA to cover IVF costs for the next two years is a step in the
30 right direction, this legislation only lasts for two years and does not lift the ban. The
31 representative from the Veterans Health Administration (VHA) testified that the VHA is
32 working hard to implement this new legislation. Accordingly, your Reference Committee
33 recommends that Council on Medical Service Report 1 be adopted and the remainder of
34 the report be filed.

35
36 (2) COUNCIL ON MEDICAL SERVICE REPORT 3 -
37 PROVIDERS AND THE ANNUAL WELLNESS VISIT

38
39 RECOMMENDATION:

40
41 Madam Speaker, your Reference Committee recommends
42 that the recommendations in Council on Medical Service
43 Report 3 be adopted and the remainder of the report be
44 filed.

45
46 **HOD ACTION: Council on Medical Service Report 3**
47 **adopted.**

48
49 Council on Medical Service Report 3 recommends that our AMA reaffirm Policies H-
50 425.997 and H-160.921; support that the Medicare Annual Wellness Visit (AWV) is a

1 benefit most appropriately provided by a physician or a member of a physician-led health
2 care team that establishes or continues to provide ongoing continuity of care; support
3 that, at a minimum, any clinician performing the AWV must enumerate all relevant
4 findings from the visit and make provisions for all appropriate follow-up care; support that
5 the Centers for Medicare & Medicaid Services (CMS) provide a means for physicians to
6 determine whether or not Medicare has already paid for an AWV for a patient in the past
7 12 months; and encourage CMS to educate Medicare enrollees, that, in choosing their
8 primary care physician, they are encouraged to make their AWVs with their primary care
9 physician in order to facilitate continuity and coordination of their care.

10
11 Testimony on Council on Medical Service Report 3 was supportive. A member of the
12 Council introduced the report emphasizing continuity of care and supporting the
13 principles that preventive care should be coordinated by the physician and physician-led
14 team. Your Reference Committee received a number of suggested amendments. One
15 speaker suggested that Recommendations 3 and 6 reference not a physician-led health
16 care team but rather a physician-led patient-centered medical home. In response, a
17 number of speakers noted that not all physicians and patients are a part of a medical
18 home. Your Reference Committee concurs and notes that a physician-led health care
19 team already encompasses a physician-led patient-centered medical home. Another
20 speaker suggested deletion of Recommendation 4. The recommendation requests that
21 the clinician performing the AWV enumerate all relevant findings. However, as a
22 member of the Council on Medical Service noted, because the statute allows for other
23 clinicians to perform the AWV, Recommendation 4 acknowledges that reality and tries to
24 work within those bounds. Your Reference Committee notes that this recommendation
25 serves to not only hold all clinicians accountable for recording and follow-up care similar
26 to the requirements put on physicians but also aims to mitigate disruptions in continuity
27 of care. So although your Reference Committee appreciates the intent of that
28 suggestion, in light of the current statute, your Reference Committee agrees with the
29 Council's testimony.

30
31 Similarly, there was a suggestion to request that CMS not reimburse for the AWV if it is
32 not provided by the patient's regular source of care. However, your Reference
33 Committee notes that the language of the statute precludes this request and notes that
34 this language impedes a provider from performing the AWV who is attempting to
35 establish a relationship as the regular source of care and therefore does not accept this
36 amendment. As a member of the Council on Medical Service stated, the report was
37 drafted in response to the statute being written in such a way that it explicitly allows for
38 various medical professionals to provide the AWV. The member noted that, while care is
39 best coordinated and provided by the physician-led team, sometimes care is not
40 provided in such a way and all parties must work to ensure continuity of care is
41 preserved in these circumstances. Your Reference Committee concurs. Another speaker
42 noted that the issues faced by physicians from the Medicare AWV mirror those from third
43 party payer wellness visits and suggests a study of this issue. While your Reference
44 Committee understands these concerns, it notes that the scope of this report is limited to
45 the Medicare AWV. Additionally, your Reference Committee highlights that the Council
46 on Medical Service is working on a report on retail health clinics for the 2017 Annual
47 Meeting that may touch on such issues.

48
49 Accordingly, your Reference Committee recommends that the recommendations in
50 Council on Medical Service Report 3 be adopted and the remainder of the report be
51 filed.

1 (3) COUNCIL ON MEDICAL SERVICE REPORT 5 -
2 INCORPORATING VALUE INTO PHARMACEUTICAL
3 PRICING
4

5 RECOMMENDATION:
6

7 Madam Speaker, your Reference Committee recommends
8 that the recommendations in Council on Medical Service
9 Report 5 be adopted and the remainder of the report be
10 filed.

11
12 **HOD ACTION: Council on Medical Service Report 5**
13 **adopted.**
14

15 Council on Medical Service Report 5 recommends that our AMA reaffirm Policies H-
16 155.960, H-185.939, H-450.933, H-460.909 and D-390.961; support value-based pricing
17 programs, initiatives and mechanisms for pharmaceuticals that are guided by outlined
18 principles; support the inclusion of the cost of alternatives and cost-effectiveness
19 analysis in comparative effectiveness research; and support direct purchasing of
20 pharmaceuticals used to treat or cure diseases that pose unique public health threats,
21 including hepatitis C, in which lower drug prices are assured in exchange for a
22 guaranteed market size.

23
24 There was generally supportive testimony on this report. A member of the Council on
25 Medical Service introduced the report, noting that policymakers, insurers and other
26 stakeholders are moving forward with efforts to integrate value into drug pricing.
27 Testimony addressed the Council report's treatment of Medicare drug price negotiation.
28 Your Reference Committee notes that the implementation of value-based pricing could
29 have an impact on patient cost-sharing for prescription drugs in Medicare Part D. For
30 example, pharmaceutical companies could be incentivized to list their drugs in
31 accordance with value-based prices, which may include guaranteeing a drug's
32 placement in the first tier of a Part D plan formulary and requiring no or nominal
33 copayment or coinsurance if drugs have value-based prices. While acknowledging that
34 Policy D-330.954 that supports eliminating the Medicare prohibition on drug price
35 negotiation remains AMA policy, expanding the policy to grant the Secretary of HHS the
36 authority to establish a formulary, develop a preferred tier in Medicare Part D, or set
37 prices administratively in order to increase the likelihood of cost savings has the
38 potential to adversely impact patient choice of Part D plans, as well as patient access to
39 the prescription drugs they need. Of note, none of the legislation introduced in Congress
40 that would allow the Secretary of HHS to negotiate drug prices in Part D included any
41 Republican sponsors or cosponsors, which is significant given the majority party of the
42 House of Representatives and Senate in the 115th Congress which begins next year.
43 Overall, your Reference Committee believes that the recommendations of this report fill
44 a noteworthy gap in AMA policy with respect to value-based pricing – an approach that
45 has the potential to impact the prices of drugs across the health care system.
46 Accordingly, your Reference Committee recommends that the recommendations of
47 Council on Medical Service Report 5 be adopted and the remainder of the report be
48 filed.

1 (4) RESOLUTION 802 - ELIMINATING FAIL FIRST POLICY
2 IN ADDICTION TREATMENT

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends
7 that Resolution 802 be adopted.

8
9 **RESOLVED, That our American Medical Association**
10 **advocate for the elimination of the “fail first” policy**
11 **implemented at times by some insurance companies**
12 **and managed care organizations for addiction**
13 **treatment. (New HOD Policy)**

14
15 **HOD ACTION: Resolution 802 adopted as amended.**

16
17 Resolution 802 asks that our AMA advocate for the elimination of the “fail first” policy
18 implemented by insurance companies for addiction treatment.

19
20 Testimony was supportive of Resolution 802. Speakers emphasized that patients with
21 addiction and substance abuse disorders should not be subject to “fail first” policies that
22 require them to fail, for example, an outpatient program before they are able to receive
23 an appropriate level of care. Your Reference Committee agrees and recommends that
24 Resolution 802 be adopted.

25
26 (5) RESOLUTION 807 - PHARMACY USE OF MEDICATION
27 DISCONTINUATION MESSAGING FUNCTION

28
29 RECOMMENDATION:

30
31 Madam Speaker, your Reference Committee recommends
32 that Resolution 807 be adopted.

33
34 **HOD ACTION: Resolution 807 adopted.**

35
36 Resolution 807 asks that our AMA strongly encourage all software providers and those
37 pharmaceutical dispensing organizations that create their own software to include the
38 functionality to accept discontinuation message transmittals in their electronic
39 prescribing software products; and strongly encourage all dispensing pharmacies
40 accepting medication prescriptions electronically to activate the discontinuation message
41 transmittal functionality in their electronic prescribing support software.

42
43 There was generally supportive testimony on this resolution. Your Reference Committee
44 concurs with testimony on the need for additional policy specifically addressing the
45 electronic cancellation of prescriptions, and as such recommends adoption of Resolution
46 807.

1 (6) COUNCIL ON MEDICAL SERVICE REPORT 2 - HEALTH
2 CARE WHILE INCARCERATED

3
4 RECOMMENDATION A:

5
6 Madam Speaker, your Reference Committee recommends
7 that Recommendation 3 in Council on Medical Service
8 Report 2 be amended by addition and deletion to read as
9 follows:

10
11 3. That our AMA support partnerships and information
12 sharing between correctional systems, community health
13 systems and state insurance programs to provide access
14 to a continuum of health care services for ~~individuals~~
15 juveniles and adults in the correctional system. (New HOD
16 Policy)

17
18 RECOMMENDATION B:

19
20 Madam Speaker, your Reference Committee recommends
21 that Recommendation 4 in Council on Medical Service
22 Report 2 be amended by addition and deletion to read as
23 follows:

24
25 4. That our AMA encourage state Medicaid agencies to
26 accept and process Medicaid applications from ~~individuals~~
27 juveniles and adults who are incarcerated. (New HOD
28 Policy)

29
30 RECOMMENDATION C:

31
32 Madam Speaker, your Reference Committee recommends
33 that Recommendation 5 in Council on Medical Service
34 Report 2 be amended by addition and deletion to read as
35 follows:

36
37 5. That our AMA encourage state Medicaid agencies to
38 work with their local departments of corrections, prisons,
39 and jails to assist incarcerated ~~individuals~~ juveniles and
40 adults who may not have been enrolled in Medicaid at the
41 time of their incarceration to apply and receive an eligibility
42 determination for Medicaid. (New HOD Policy)

1 RECOMMENDATION D:
2

3 Madam Speaker, your Reference Committee recommends
4 that Recommendation 6 in Council on Medical Service
5 Report 2 be amended by addition and deletion to read as
6 follows:
7

8 6. That our AMA encourage states to suspend rather than
9 terminate ~~an individual's~~ Medicaid eligibility of juveniles
10 and adults upon intake into the criminal justice system and
11 throughout the incarceration process, and to reinstate
12 coverage when the individual transitions back into the
13 community. (New HOD Policy)
14

15 RECOMMENDATION E:
16

17 Madam Speaker, your Reference Committee recommends
18 Council on Medical Service Report 2 be amended by
19 addition of a new Recommendation to read as follows:
20

21 That our AMA urge the Centers for Medicare & Medicaid
22 Services (CMS) and state Medicaid agencies to provide
23 Medicaid coverage for health care, care coordination
24 activities and linkages to care delivered to patients up to
25 30 days before the anticipated release from correctional
26 facilities in order to help establish coverage effective upon
27 release, assist with transition to care in the community, and
28 help reduce recidivism. (New HOD Policy)
29

30 RECOMMENDATION F:
31

32 Madam Speaker, your Reference Committee recommends
33 that Council on Medical Service Report 2 be amended by
34 addition of a new Recommendation to read as follows:
35

36 That our AMA advocate for necessary programs and staff
37 training to address the distinctive health care needs of
38 incarcerated women and adolescent females, including
39 gynecological care and obstetrics care for pregnant and
40 postpartum women. (New HOD Policy)
41

42 RECOMMENDATION G:
43

44 Madam Speaker, your Reference Committee recommends
45 that the recommendations in Council on Medical Service
46 Report 2 be adopted as amended and the remainder of the
47 report be filed.

1 **2. That our AMA advocate for adequate payment to**
2 **health care providers, including primary care, and**
3 **mental health, and addiction treatment professionals,**
4 **to encourage improved access to comprehensive**
5 **physical and behavioral health care services to**
6 **juveniles and adults throughout the incarceration**
7 **process from intake to re-entry into the community.**
8 **(New HOD Policy)**
9

10 **HOD ACTION: Council on Medical Service Report 2**
11 **adopted as amended.**
12

13 Council on Medical Service Report 2 recommends that our AMA reaffirm Policy D-
14 430.997; advocate for adequate payment to health care providers, including primary
15 care and mental health professionals, to encourage improved access to comprehensive
16 physical and behavioral health care services to juveniles and adults throughout the
17 incarceration process from intake to re-entry into the community; support partnerships
18 and information sharing between correctional systems, community health systems and
19 state insurance programs to provide access to a continuum of health care services for
20 individuals in the correctional system; encourage state Medicaid agencies to accept and
21 process Medicaid applications from individuals who are incarcerated; encourage state
22 Medicaid agencies to work with their local departments of corrections, prisons, and jails
23 to assist incarcerated individuals who may not have been enrolled in Medicaid at the
24 time of their incarceration to apply and receive an eligibility determination for Medicaid;
25 encourage states to suspend rather than terminate an individual's Medicaid eligibility
26 upon intake into the criminal justice system and throughout the incarceration process,
27 and to reinstate coverage when the individual transitions back into the community; and
28 rescind Policy D-430.994, which requested the study accomplished by this report.
29

30 Testimony on Council on Medical Service Report 2 was very supportive. A member of
31 the Council on Medical Service introduced the report, noting that the incarcerated
32 population has a higher rate of chronic disease and mental health conditions than the
33 general population, and highlighting the report's recommendations, including several
34 related to state Medicaid agencies. Additional testimony spoke to the importance of
35 having Medicaid coverage in place and health care services available at the time
36 individuals transition out of incarceration and into their communities. One speaker
37 suggested that the report recommendations specifically address both juveniles and
38 adults, and your Reference Committee recommends amendments to Recommendations
39 3, 4, 5 and 6 to accomplish this suggestion.
40

41 An amendment was offered asking the AMA to urge the Centers for Medicare &
42 Medicaid Services (CMS) and state Medicaid agencies to provide Medicaid coverage for
43 health care, care coordination activities and linkages to care delivered to patients up to
44 30 days before release from correctional facilities to help establish care in the
45 community and reduce recidivism. A second amendment was offered requesting that the
46 AMA advocate for necessary programs and staff training to address the distinctive health
47 care needs of incarcerated women and adolescent females, including gynecological care
48 and obstetric care for pregnant and postpartum women. There was substantial support
49 for these amendments and your Reference Committee therefore recommends the
50 addition of new recommendations. Your Reference Committee recommends that the

1 recommendations in Council on Medical Service Report 2 be adopted as amended and
2 the remainder of the report filed.

3
4 (7) COUNCIL ON MEDICAL SERVICE REPORT 4 -
5 CONCURRENT HOSPICE AND CURATIVE CARE
6 RESOLUTION 812 - ENACT RULES AND PAYMENT
7 MECHANISMS TO ENCOURAGE APPROPRIATE
8 HOSPICE AND PALLIATIVE CARE USAGE
9

10 RECOMMENDATION A:

11
12 Madam Speaker, your Reference Committee recommends
13 that Recommendation 4 in Council on Medical Service
14 Report 4 be amended by addition to read as follows:

15
16 4. That our AMA encourage physicians to be familiar with
17 local hospice and palliative care resources and their
18 benefit structures, as well as clinical practice guidelines
19 developed by national medical specialty societies, and to
20 refer seriously ill patients accordingly. (New HOD Policy)
21

22 RECOMMENDATION B:

23
24 Madam Speaker, your Reference Committee recommends
25 that the recommendations in Council on Medical Service
26 Report 4 be adopted as amended in lieu of Resolution 812
27 and the remainder of the report be filed.
28

29 **HOD ACTION: Council on Medical Service Report 4**
30 **adopted as amended in lieu of Resolution 812.**
31

32 Council on Medical Service Report 4 recommends that our AMA reaffirm Policy H-
33 85.966; support continued study and pilot testing by the Centers for Medicare &
34 Medicaid Services (CMS) of a variety of models for providing and paying for concurrent
35 hospice, palliative and curative care; encourage CMS to identify ways to optimize patient
36 access to palliative care, which relieves suffering and improves quality of life for people
37 with serious illnesses, regardless of whether they can be cured, and to provide
38 appropriate coverage and payment for these services; and encourage physicians to be
39 familiar with local hospice and palliative care resources and their benefit structures, and
40 to refer seriously ill patients accordingly.
41

42 Resolution 812 asks that our AMA amend Policy H-85.955, Hospice Care, by addition to
43 advocate that the Centers for Medicare and Medicaid Services enact rules and payment
44 mechanisms to encourage appropriate hospice and palliative care utilization for eligible
45 patients.
46

47 Testimony was very supportive of Council on Medical Service Report 4 and the intent of
48 Resolution 812. A member of the Council on Medical Service introduced the report,
49 highlighting recommendations calling for continued study and pilot testing by the Centers
50 for Medicare & Medicaid Services (CMS) of a variety of models for providing and paying
51 for concurrent hospice, palliative and curative care, and also encouraging CMS to

1 identify ways to optimize patient access to palliative care and to provide appropriate
2 coverage and payment for these services. The sponsor of Resolution 812 testified in
3 support of Council on Medical Service Report 4, suggesting that the report be adopted in
4 lieu of Resolution 812. One speaker pointed out that several national medical specialty
5 societies have developed clinical practice guidelines on hospice and palliative care. Your
6 Reference Committee recommends amending Recommendation 4 to encourage
7 physicians to be familiar with these guidelines. Accordingly, your Reference Committee
8 recommends that Council on Medical Service Report 4 be adopted as amended in lieu of
9 Resolution 812.

10
11 (8) COUNCIL ON MEDICAL SERVICE REPORT 6 -
12 INTEGRATION OF MOBILE HEALTH APPLICATIONS
13 AND DEVICES INTO PRACTICE

14
15 RECOMMENDATION A:

16
17 Madam Speaker, your Reference Committee recommends
18 that Recommendation 3 in Council on Medical Service
19 Report 6 be amended by addition and deletion to read as
20 follows:

21
22 3. That our AMA support the establishment of coverage,
23 payment and financial incentive mechanisms to support
24 the use of mobile health applications (mHealth apps) and
25 associated devices, trackers and sensors by patients,
26 physicians and other providers that:

- 1 a) support the establishment or continuation of a valid
- 2 patient-physician relationship;
- 3 b) have a high-quality clinical evidence base to support
- 4 their use in order to ensure mHealth app safety and
- 5 effectiveness;
- 6 c) follow evidence-based practice guidelines, especially
- 7 those developed and produced by national medical
- 8 specialty societies and based on systematic reviews, to the
- 9 degree they are available, to ensure patient safety, quality
- 10 of care and positive health outcomes;
- 11 d) support care delivery that is patient-centered, promotes
- 12 care coordination and facilitates team-based
- 13 communication;
- 14 e) support data portability and interoperability in order to
- 15 promote care coordination through medical home and
- 16 accountable care models;
- 17 f) abide by state licensure laws and state medical practice
- 18 laws and requirements in the state in which the patient
- 19 receives services facilitated by the app;
- 20 g) require that physicians and other health practitioners
- 21 delivering services through the app be licensed in the state
- 22 where the patient receives services, or be providing these
- 23 services as otherwise authorized by that state’s medical
- 24 board; and
- 25 h) ensure that the delivery of any services via the app be
- 26 consistent with state scope of practice laws. (New HOD
- 27 Policy)

28
29 RECOMMENDATION B:

30
31 Madam Speaker, your Reference Committee recommends
32 that Council on Medical Service Report 6 be amended by
33 addition of a new Recommendation to read as follows:

34
35 That our AMA assess the feasibility of state and federal
36 legislation, as well as other innovative alternatives, in an
37 effort to mitigate the physician’s potential risk of liability
38 from the use or recommendation of mHealth apps.
39 (Directive to Take Action)

40
41 RECOMMENDATION C:

42
43 Madam Speaker, your Reference Committee recommends
44 that the recommendations in Council on Medical Service
45 Report 6 be adopted and the remainder of the report be
46 filed.

47
48 **HOD ACTION: Council on Medical Service Report 6**
49 **adopted as amended.**

1 Council on Medical Service Report 6 recommends that our AMA reaffirm Policies H-
2 480.946 and H-100.980; support the establishment of coverage, payment and financial
3 incentive mechanisms to support the use of mobile health applications (mHealth apps)
4 and associated devices, trackers and sensors by patients, physicians and other
5 providers that follow outlined principles; support that mHealth apps and associated
6 devices, trackers and sensors must abide by applicable laws addressing the privacy and
7 security of patients' medical information; encourage the mobile app industry and other
8 relevant stakeholders to conduct industry-wide outreach and provide necessary
9 educational materials to patients to promote increased awareness of the varying levels
10 of privacy and security of their information and data afforded by mHealth apps, and how
11 their information and data can potentially be collected and used; encourage the mHealth
12 app community to work with the AMA, national medical specialty societies, and other
13 interested physician groups to develop app transparency principles, including the
14 provision of a standard privacy notice to patients if apps collect, store and/or transmit
15 protected health information; encourage physicians to consult with qualified legal
16 counsel if unsure of whether an mHealth app meets Health Insurance Portability and
17 Accountability Act standards and also inquire about any applicable state privacy and
18 security laws; encourage physicians to alert patients to the potential privacy and security
19 risks of any mHealth apps that he or she prescribes or recommends, and document the
20 patient's understanding of such risks; assess the potential liability risks to physicians for
21 using, recommending, or prescribing mHealth apps, including risk under federal and
22 state medical liability, privacy, and security laws; support further development of
23 research and evidence regarding the impact that mHealth apps have on quality, costs,
24 patient safety and patient privacy; and encourage national medical specialty societies to
25 develop guidelines for the integration of mHealth apps and associated devices into care
26 delivery.

27
28 There was generally supportive testimony on this report. An amendment was offered to
29 ensure that mHealth apps have the highest quality of evidence to support their use, and
30 highlight the importance of evidence-based practice guidelines developed and produced
31 by national medical specialty societies, and based on systematic reviews, being followed
32 in mHealth app development and implementation. In addition, another amendment was
33 offered to support the AMA assessing the feasibility of state and federal legislation, as
34 well as other innovative alternatives, in an effort to mitigate the physician's potential risk
35 of liability from the use or recommendation of mHealth apps. The Council on Medical
36 Service accepted both amendments as friendly. Your Reference Committee believes
37 that the recommendations of this report effectively address the obstacles that physicians
38 and patients face in accepting and utilizing mHealth technologies. Accordingly, your
39 Reference Committee recommends that the recommendations of Council on Medical
40 Service Report 6 be adopted as amended and the remainder of the report be filed.

1 (9) COUNCIL ON MEDICAL SERVICE REPORT 7 -
2 HOSPITAL DISCHARGE COMMUNICATIONS
3 RESOLUTION 818 - IMPROVING COMMUNICATIONS
4 AMONG HEALTH CARE CLINICIANS

5
6 RECOMMENDATION A:

7
8 Madam Speaker, your Reference Committee recommends
9 that Council on Medical Service Report 7 be amended by
10 addition of a new Recommendation to read as follows:

11
12 That our AMA support making hospital discharge
13 instructions available to patients in both printed and
14 electronic form, and specifically via online portals
15 accessible to patients and their designated caregivers.
16 (New HOD Policy)

17
18 RECOMMENDATION B:

19
20 Madam Speaker, your Reference Committee recommends
21 that Council on Medical Service Report 7 be amended by
22 addition of a new Recommendation to read as follows:

23
24 That our AMA develop model guidelines for physicians to
25 improve communications to other physicians, hospital staff
26 and patients, and promote these guidelines to payers,
27 hospitals and patients. (Directive to Take Action)

28
29 RECOMMENDATION C:

30
31 Madam Speaker, your Reference Committee recommends
32 that the recommendations in Council on Medical Service
33 Report 7 be adopted in lieu of Resolution 818 and the
34 remainder of the report be filed.

35
36 **HOD ACTION: Council on Medical Service Report 7**
37 **adopted as amended in lieu of Resolution 818.**

38
39 Council on Medical Service Report 7 recommends that our AMA reaffirm Policies D-
40 478.995, H-160.942 and D-160.945; encourage the initiation of the discharge planning
41 process, whenever possible, at the time patients are admitted for inpatient or
42 observation services and, for surgical patients, prior to hospitalization; encourage the
43 development of discharge summaries that are presented to physicians in a meaningful
44 format that prominently highlight salient patient information, such as the discharging
45 physician’s narrative and recommendations for ongoing care; encourage hospital
46 engagement of patients and their families/caregivers in the discharge process, using
47 outlined guidelines; support implementation of medication reconciliation as part of the
48 hospital discharge process, using suggested strategies to optimize medication
49 reconciliation and help ensure that patients take medications correctly after they are
50 discharged; encourage patient follow-up in the early time period after discharge as part
51 of the hospital discharge process, particularly for medically complex patients who are at

1 high-risk of re-hospitalization; and encourage hospitals to review early readmissions and
2 modify their discharge processes accordingly.

3
4 Resolution 818 asks that our AMA, in association with the AHA, assess the national
5 impact of communication barriers and their negative impact on direct patient care in the
6 hospital and after discharge between physician-physician in the hospital, in-hospital and
7 after discharge care, and physician-patients and report to the HOD by the 2017 Interim
8 Meeting; and research and develop guidelines that physicians can initiate in their
9 communities to improve communication between physician-physician in the hospital,
10 hospital and after discharge care, and physician-patients and report to the HOD by the
11 2017 Interim Meeting.

12
13 Testimony on Council on Medical Service Report 7 and Resolution 818 was generally
14 supportive. A member of the Council on Medical Service testified that the report's
15 recommendations are intended to complement the AMA's extensive policy by honing in
16 on several critical elements of the discharge process-including hospital engagement of
17 patients and their families, and medication reconciliation-that can be adapted locally.
18 Testimony noted that the report is a follow-up to Council on Medical Service Report 6-A-
19 16, which focused on physician communications during patient hospitalizations.
20 Frustration with lengthy discharge documents, which are often not well understood by
21 patients, was expressed by speakers. Your Reference Committee believes that
22 Recommendation 5, which encourages the development of discharge summaries that
23 are presented to physicians in a meaningful format that prominently highlight salient
24 patient information, addresses this concern. Testimony also emphasized that
25 improvements in interoperability of electronic health records and standardized electronic
26 forms have the potential to enhance communications in the future.

27
28 An amendment was offered regarding patient access to discharge instructions via
29 patient portals, as well as the ability of patients to delegate access to such portals to
30 their designated caregivers. Your Reference Committee therefore recommends a new
31 recommendation asking the AMA to support making hospital discharge instructions
32 available to patients in both printed and electronic form, and specifically in online portals
33 accessible to patients and their designated caregivers.

34
35 The sponsor of Resolution 818 expressed support for the report, and offered additional
36 language requesting the AMA to develop guidelines for physicians to improve
37 communications, and to promote such guidelines upon their completion. Your Reference
38 Committee points out that the report references existing evidence-based programs
39 including the SafeMed care transitions model, Project BOOST (Better Outcomes for
40 Older Adults through Safe Transitions), and Project RED (Re-Engineered Discharge).
41 Also, your Reference Committee recommends a new recommendation that asks the
42 AMA to develop model guidelines for physicians to improve communications to other
43 physicians, hospital staff and patients, and promote these guidelines to payers, hospitals
44 and patients. Your Reference Committee recommends that Council on Medical Service
45 Report 7 be adopted as amended in lieu of Resolution 818.

1 (10) RESOLUTION 804 - PARITY IN REPRODUCTIVE
2 HEALTH INSURANCE COVERAGE FOR SAME-SEX
3 COUPLES
4

5 RECOMMENDATION A:
6

7 Madam Speaker, your Reference Committee recommends
8 that the first Resolve of Resolution 804 be amended by
9 addition and deletion to read as follows:

10
11 RESOLVED, That our American Medical Association
12 support ~~parity in~~ insurance coverage for fertility treatments
13 regardless of marital status or sexual orientation for same-
14 sex couples, when insurance provides coverage for fertility
15 treatments. (New HOD Policy)
16

17 RECOMMENDATION B:
18

19 Madam Speaker, your Reference Committee recommends
20 that the second Resolve of Resolution 804 be amended by
21 addition and deletion to read as follows:

22
23 RESOLVED, That our AMA support local and state efforts
24 to promote ~~parity in~~ reproductive health insurance
25 coverage regardless of marital status or sexual orientation
26 for same-sex couples when insurance provides coverage
27 for fertility treatments. (New HOD Policy)
28

29 RECOMMENDATION C:
30

31 Madam Speaker, your Reference Committee recommends
32 that Resolution 804 be adopted as amended.
33

34 RECOMMENDATION D:
35

36 Madam Speaker, your Reference Committee recommends
37 that the title of Resolution 804 be changed to read as
38 follows:
39

40 REPRODUCTIVE HEALTH INSURANCE COVERAGE
41

42 **HOD ACTION: Resolution 804 adopted as amended with a**
43 **change in title.**
44

45 Resolution 804 asks that our AMA support parity in insurance coverage for fertility
46 treatments for same-sex couples, when insurance provides coverage for fertility
47 treatments; and support local and state efforts to promote parity in reproductive health
48 insurance coverage for same-sex couples when insurance provides coverage for fertility
49 treatments.

1 Testimony on Resolution 804 was unanimously supportive. Several speakers noted that
2 AMA policy supports measures providing same-sex households with the same rights and
3 privileges to health care, health insurance, and survivor benefits as afforded to opposite-
4 sex households (Policy H-65.973). Your Reference Committee believes this resolution is
5 consistent with existing AMA work on non-discrimination and with existing policy on
6 eliminating health care disparities. An amendment was offered to expand the resolution
7 to include both sexual orientation and differing marital status. Your Reference
8 Committee accepts this amendment. Additional testimony did not offer an amendment
9 but noted that there is not infertility per se in some situations, specifically for same-sex
10 couples, and that this policy should account for such situations. Your Reference
11 Committee agrees and suggests striking mention of parity to address this issue.
12 Accordingly, your Reference Committee recommends Resolution 804 be adopted as
13 amended.

14
15 (11) RESOLUTION 808 - A STUDY ON THE HOSPITAL
16 CONSUMER ASSESSMENT OF HEALTHCARE
17 PROVIDERS AND SYSTEMS (HCAHPS) SURVEY AND
18 HEALTHCARE DISPARITIES

19
20 RECOMMENDATION A:

21
22 Madam Speaker, your Reference Committee recommends
23 that Resolution 808 be amended by addition and deletion
24 to read as follows:

25
26 RESOLVED, That our American Medical Association study
27 the ~~potential healthcare disparities caused by~~ impact of the
28 Hospital Consumer Assessment of Healthcare Providers
29 and Systems (HCAHPS) on in Medicare reimbursement
30 payments to hospitals serving vulnerable populations and
31 on potential health care disparities. (Directive to Take
32 Action)

33
34 RECOMMENDATION B:

35
36 Madam Speaker, your Reference Committee recommends
37 that Resolution 808 be adopted as amended.

38
39 **HOD ACTION: Resolution 808 adopted as amended.**

40
41 Resolution 808 asks that our AMA study the potential healthcare disparities caused by
42 Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) in
43 Medicare reimbursement.

44
45 The majority of testimony on Resolution 808 was supportive. Your Reference Committee
46 discussed two amendments that were offered. The first, which asked the AMA to study
47 the disproportionate impact of pay-for-performance penalties, including those related to
48 HCAHPS, substantially expanded the parameters of the original study requested in
49 Resolution 808. A second amendment asked the AMA to urge the Centers for Medicare
50 & Medicaid Services to amend HCAHPS without studying the survey's impact on health
51 care disparities. Your Reference Committee recommends that Resolution 808 be

1 adopted as amended, and requests that the future study address the number of linguistic
2 groups surveyed via HCAHPS and the need for adjustments that account for the
3 socioeconomic status of patients and safety net disproportionate share hospitals.

4
5 (12) RESOLUTION 809 - ADDRESSING THE EXPLOITATION
6 OF RESTRICTED DISTRIBUTION SYSTEMS BY
7 PHARMACEUTICAL MANUFACTURERS

8
9 RECOMMENDATION A:

10
11 Madam Speaker, your Reference Committee recommends
12 that the first Resolve of Resolution 809 be amended by
13 addition and deletion to read as follows:

14
15 RESOLVED, That our American Medical Association
16 advocate with interested parties for legislative or regulatory
17 measures that require prescription drug manufacturers to
18 seek ~~Federal~~ Food and Drug Administration and Federal
19 Trade Commission approval before establishing a
20 restricted distribution system (New HOD Policy); and be it
21 further

22
23 RECOMMENDATION B:

24
25 Madam Speaker, your Reference Committee recommends
26 that the second Resolve of Resolution 809 be amended by
27 addition and deletion to read as follows:

28
29 RESOLVED, That our AMA support requiring
30 pharmaceutical companies to allow for reasonable access
31 to and purchase of appropriate quantities ~~the mandatory~~
32 ~~provision of samples~~ of approved out-of-patent drugs upon
33 request to generic manufacturers seeking to perform
34 bioequivalence assays (New HOD Policy); and be it further

35
36 RECOMMENDATION C:

37
38 Madam Speaker, your Reference Committee recommends
39 that Resolution 809 be adopted as amended.

40
41 **HOD ACTION: Resolution 809 adopted as amended.**

42
43 Resolution 809 asks that our AMA advocate with interested parties for legislative or
44 regulatory measures that require prescription drug manufacturers to seek Federal Drug
45 Administration and Federal Trade Commission approval before establishing a restricted
46 distribution system; support the mandatory provision of samples of approved out-of-
47 patent drugs upon request to generic manufacturers seeking to perform bioequivalence
48 assays; and advocate with interested parties for legislative or regulatory measures that
49 expedite the FDA approval process for generic drugs, including but not limited to
50 application review deadlines and generic priority review voucher programs.

1 There was mixed testimony on Resolution 809. Speakers raised concerns with the
2 language of the second resolve that would require mandatory provision of appropriate
3 quantities of approved out-of-patent drugs upon request to generic manufacturers
4 seeking to perform bioequivalence assays. There were also calls for referral. While your
5 Reference Committee agrees that generic drug companies need improved access to
6 appropriate quantities of out-of-patent drugs, your Reference Committee has offered an
7 amendment to the second resolve to clarify that appropriate quantities should be
8 accessible to generic drug manufacturers and available for purchase upon request. Your
9 Reference Committee believes that Resolution 809 as amended would strengthen AMA
10 policy addressing the utilization and impact of controlled distribution channels for
11 pharmaceuticals, including those resulting from Risk Evaluation and Mitigation
12 Strategies (REMS), as well as policy supporting an effective generic drug approval
13 process. Accordingly, your Reference Committee recommends that Resolution 809 be
14 adopted as amended.

15
16 (13) RESOLUTION 810 - MEDICAL NECESSITY OF BREAST
17 RECONSTRUCTION AND REDUCTION SURGERIES

18
19 RECOMMENDATION:

20
21 Madam Speaker, your Reference Committee recommends
22 that the following resolution be adopted in lieu of
23 Resolution 810.

24
25 **HOD ACTION: Substitute resolution adopted in lieu of**
26 **Resolution 810.**

27
28 MEDICAL NECESSITY AND UTILIZATION REVIEW

29
30 RESOLVED, That our American Medical Association
31 support efforts to ensure medical necessity and utilization
32 review decisions are based on established and evidence-
33 based clinical criteria to promote the most clinically
34 appropriate care (New HOD Policy); and be it further

35
36 RESOLVED, That our AMA support efforts to ensure that
37 medical necessity and utilization review decisions are
38 based on assessment of preoperative symptomatology for
39 macromastia without requirements for weight or volume
40 resected during breast reduction surgery. (New HOD
41 Policy)

42
43 Resolution 810 asks that our AMA support efforts to adapt medical necessity and
44 insurance coverage decisions for assessment of preoperative symptomatology for
45 macromastia without requirements for weight of volume resected during breast reduction
46 surgery.

47
48 There was unanimous supportive testimony on Resolution 810. Substitute language and
49 a title change were offered to encompass both medical necessity broadly and the
50 specific breast reduction surgery requirements as issue. Additional testimony supported
51 this substitute, and your Reference Committee agrees. Your Reference Committee

1 notes it may be helpful to change “insurance coverage” to “utilization review” because
2 the phrase “insurance coverage” may be overly inclusive as it would include all aspects
3 of paying for a patient that are not necessarily based on clinical evidence, such as a
4 patient not paying his or her premiums. Accordingly, your Reference Committee
5 recommends adoption of alternate language in lieu of Resolution 810.
6

7 (14) RESOLUTION 814 - ADDRESSING DISCRIMINATORY
8 HEALTH PLAN EXCLUSIONS OR PROBLEMATIC
9 BENEFIT SUBSTITUTIONS FOR ESSENTIAL HEALTH
10 BENEFITS UNDER THE AFFORDABLE CARE ACT
11

12 RECOMMENDATION:
13

14 Madam Speaker, your Reference Committee recommends
15 that the following resolution be adopted in lieu of
16 Resolution 814.
17

18 RESOLVED, That our American Medical Association work
19 with state medical societies to ensure that no health carrier
20 or its designee may adopt or implement a benefit design
21 that discriminates on the basis of health status, race, color,
22 national origin, disability, age, sex, gender identity, sexual
23 orientation, expected length of life, present or predicted
24 disability, degree of medical dependency, quality of life, or
25 other health conditions (Directive to Take Action); and be it
26 further
27

28 RESOLVED, That our AMA work with state medical
29 societies to see that appropriate action is taken by state
30 regulators when discrimination may exist in benefit designs
31 (Directive to Take Action); and be it further
32

33 RESOLVED, That our AMA support improvements to the
34 essential health benefits benchmark plan selection process
35 to ensure limits and exclusions do not impede access to
36 health care and coverage (New HOD Policy); and be it
37 further
38

39 RESOLVED, That our AMA encourage federal regulators
40 to develop policy to prohibit essential health benefits
41 substitutions that do not exist in a state’s benchmark plan
42 and the selective use of exclusions or arbitrary limits that
43 prevent high-cost claims or that encourage high-cost
44 enrollees to drop coverage (New HOD Policy); and be it
45 further

1 RESOLVED, That our AMA encourage federal regulators
2 to review current plans for discriminatory exclusions and
3 submit any specific incidents of discrimination through an
4 administrative complaint to Office for Civil Rights. (New
5 HOD Policy)
6

7 **HOD ACTION: Substitute resolution adopted in lieu of**
8 **Resolution 814.**
9

10 Resolution 814 asks that our AMA work with state medical societies and their state
11 regulators to facilitate the following: 1. Prohibit health plans from imposing arbitrary limits
12 that are unreasonable or potentially discriminatory for coverage of the Essential Health
13 Benefits (EHB). 2. Require any insurer, whose plans contain exclusions that are not in
14 the state EHB benchmark plan, demonstrate that its benefits are substantially similar
15 and actuarially equivalent to the benchmark, in compliance with federal regulations. 3.
16 Define the state habitative EHB definition that goes beyond the federal minimum
17 definition. 4. Review current plans for discriminatory exclusions and require insurers to
18 revise these plans if discriminatory exclusions present. 5. Review consumer complaints
19 for incidents of discriminatory benefit and formulary design, cost-sharing, problematic
20 EHB substitutions or exclusions. 6. Prohibit insurer benefit substitutions in the EHB.

21
22 Resolution 814 also asks that our AMA work with federal regulators to: 1. Improve the
23 EHB benchmark plan selection process to ensure arbitrary limits and exclusions do not
24 impede access to healthcare and coverage. 2. Develop policy to prohibit EHB
25 substitutions that do not exist in a state's benchmark plan or selective use of exclusions
26 or arbitrary limits to prevent high-cost claims or that encourage high-cost enrollees to
27 drop coverage. 3. Review current plans for discriminatory exclusions and submit any
28 specific incidents of discrimination through an administrative complaint to Office for Civil
29 Rights.
30

31 There was limited yet mixed testimony on Resolution 814. A member of the Council on
32 Medical Service raised concerns that the language of the resolution was overly
33 prescriptive. There were also calls for referral. However, your Reference Committee has
34 offered substitute language to address the concerns highlighted in testimony, while
35 supporting the intent of the original resolution. Your Reference Committee recommends
36 adoption of alternate language in lieu of Resolution 814.

1 (15) RESOLUTION 815 - PRESERVATION OF PHYSICIAN-
2 PATIENT RELATIONSHIPS AND PROMOTION OF
3 CONTINUITY OF PATIENT CARE
4

5 RECOMMENDATION A:
6

7 Madam Speaker, your Reference Committee recommends
8 that the second Resolve of Resolution 815 be amended by
9 addition to read as follows:

10
11 RESOLVED, That our AMA support the freedom of choice
12 of physicians to refer their patients to the physician
13 practice or hospital that they think is most able to provide
14 the best medical care when appropriate care is not
15 available within a limited network of providers. (New HOD
16 Policy)
17

18 RECOMMENDATION B:
19

20 Madam Speaker, your Reference Committee recommends
21 that Resolution 815 be adopted as amended.
22

23 **HOD ACTION: Resolution 815 adopted as amended.**
24

25 Resolution 815 asks that our AMA support policies that encourage the freedom of
26 patients to choose the health care delivery system that best suits their needs and
27 provides them with a choice of physicians; support the freedom of choice of physicians
28 to refer their patients to the physician practice or hospital that they think is most able to
29 provide the best medical care; and support policies that encourage patients to return to
30 their established primary care provider after emergency department visits, hospitalization
31 or specialty consultation.
32

33 Testimony on Resolution 815 was generally supportive. A member of the Council on
34 Medical Service testified that protection of physician-patient relationships was the focus
35 of Council on Medical Service Report 4-A-10, and that reaffirmation of existing policy
36 may be appropriate. Several speakers supported an amendment to the second Resolve
37 clause, which supports the ability of physicians to refer patients out-of-network when
38 appropriate care is not available within a limited network of providers. Your Reference
39 Committee concurs and recommends that Resolution 815 be adopted as amended.
40

41 (16) RESOLUTION 805 - HEALTH INSURANCE COMPANIES
42 SHOULD COLLECT DEDUCTIBLE FROM PATIENTS
43 AFTER FULL PAYMENTS TO PHYSICIANS
44

45 RECOMMENDATION:
46

47 Madam Speaker, your Reference Committee recommends
48 that Resolution 805 be referred.
49

50 **HOD ACTION: Resolution 805 referred for decision.**

1 Resolution 805 asks that our AMA seek federal and state legislation that requires health
2 insurers to reimburse physicians the full negotiated payment rate for services to
3 enrollees in high deductible plans and that the health insurers collect any patient
4 financial responsibility, including deductibles and co-insurance, directly from the patient.

5
6 There was generally supportive testimony on Resolution 805. Speakers stressed that
7 patient collections have become a much more challenging issue with the advent of high-
8 deductible health plans. However, your Reference Committee believes that Resolution
9 805 raises issues that warrant further study, due to the expected impact on physician
10 practices, as well as the potential for unintended consequences. For example, some
11 physicians may not want to cede patient collections to health plans as called for in
12 Resolution 805. Physicians currently have the ability to offer discounts or payment plans
13 to patients to facilitate good will – a business practice that would be impacted. Also,
14 your Reference Committee believes that Resolution 805 has the potential to adversely
15 affect physician payment, as well as the accounts receivable of physician practices. In
16 addition, if Resolution 805 were implemented, health plans could potentially charge
17 administrative fees or physician payment levels could be lowered resulting from a
18 perceived decrease in the level of physician practice personnel needed, as well as
19 overhead expenses. As such, your Reference Committee recommends that Resolution
20 805 be referred.

21
22 (17) RESOLUTION 811 - OPPOSITION TO CMS MANDATING
23 TREATMENT EXPECTATIONS AND PRACTICING
24 MEDICINE

25
26 RECOMMENDATION:

27
28 Madam Speaker, your Reference Committee recommends
29 that Resolution 811 be referred for decision.

30
31 **HOD ACTION: Resolution 811 referred for decision.**

32
33 Resolution 811 asks that our AMA oppose CMS creating mandatory standards of care
34 that may potentially harm patients, disrupt the patient-physician relationship, and fail to
35 recognize the importance of appropriate physician assessment, evidence-based
36 medicine and goal-directed care of individual patients; communicate to hospitals that
37 some CMS mandatory standards of care do not recognize appropriate physician
38 treatment and may cause unnecessary harm to patients; and communicate to members,
39 state and specialty societies, and the public the dangers of CMS' quality indicators
40 potentially harming the patient-physician relationship.

41
42 There was generally supportive testimony on Resolution 811. Members from the Board
43 of Trustees, Council on Medical Service and Council on Legislation noted that a
44 resolution addressing the unintended consequences of core measures was referred at
45 the 2016 Annual Meeting, so a report on the issues raised in Resolution 811 is already
46 being developed for the 2017 Annual Meeting. Similar to Resolution 811, the referred
47 resolution also responded to the core measure addressing severe sepsis and septic
48 shock. Despite the study underway, speakers spoke to the urgency of the resolution, as
49 the implementation of core measures has already begun, with the potential to interfere
50 with how physicians practice medicine. A speaker also called for a moratorium of the
51 implementation of core quality measures that have not been vetted by the physician

1 community, including affected national medical specialty societies. There were calls to
2 refer Resolution 811 for decision, as action may need to be taken by the AMA prior to
3 the 2017 Annual Meeting. A member of the Board of Trustees also welcomed the
4 referral of the resolution for decision. Your Reference Committee agrees that Resolution
5 811 should be referred for decision, to ensure that our AMA can develop a
6 comprehensive and consistent response to core quality measures of the Centers for
7 Medicare and Medicaid Services.

8
9 (18) RESOLUTION 813 - PHYSICIAN PAYMENT FOR
10 INFORMATION TECHNOLOGY COSTS

11
12 RECOMMENDATION:

13
14 Madam Speaker, your Reference Committee recommends
15 that Resolution 813 be referred for decision.

16
17 **HOD ACTION: Resolution 813 referred for decision.**

18
19 Resolution 813 asks that our AMA assist in gathering and providing data that physicians
20 can use to convince public and private payers that payment must cover the increasing
21 information technology costs of physicians.

22
23 Testimony on Resolution 813 was overall supportive. A member of the Council on
24 Medical Service testified that the problem does not appear to be lack of data and finds
25 further data gathering unnecessary. Your Reference Committee agrees. The Council
26 member stated that the AMA partnered with Dartmouth-Hitchcock in a 2015 joint
27 research project to establish the amount of time that physicians spend on administrative
28 tasks versus clinical care. Board of Trustees Report 11-A-15 outlined the methodology
29 and research plan for this study, which involved direct observation of physicians in
30 sixteen practices across four medical specialties and four geographic regions. The AMA
31 and Dartmouth-Hitchcock authors prepared a manuscript describing the results of this
32 study, which were published in the Annals of Internal Medicine in September 2016. The
33 member noted that EHRs are not a one-size-fits all mechanism and that the request of
34 this resolution may not be feasible and is not focused enough to achieve its intended
35 objective. Your Reference Committee concurs and notes that this resolution may be
36 overly simplistic since there are many cost facets of information technology including the
37 cost of implementation, upgrades, maintenance, and time costs.

38
39 Additionally, your Reference Committee believes that adopting this resolution or the
40 suggested amendment implicitly suggests that the AMA believes public and private
41 payers must cover the information technology costs of physicians. Your Reference
42 Committee believes this is potentially problematic and finds the issue to be more
43 complex than the resolution or amendment convey. Accordingly, your Reference
44 Committee recommends that Resolution 813 be referred for decision, with consideration
45 of the proposed amendment.

1 (19) RESOLUTION 816 - SUPPORT FOR SEAMLESS
2 PHYSICIAN CONTINUITY OF PATIENT CARE

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends
7 that Resolution 816 be referred for decision.

8
9 **HOD ACTION: Resolution 816 referred for decision.**

10
11 Resolution 816 asks that our AMA clearly support the concept of seamless continuity of
12 care between hospital inpatient and outpatient care; and study whether there are
13 instances of health insurers or HMO's precluding physicians via contracts from providing
14 care to their patients in the in-patient setting for which the physician has clinical
15 privileges.

16
17 Testimony on Resolution 816 was limited. Substitute language offered by the Senior
18 Physicians Section asked the AMA to investigate the practice of risk management
19 companies that require through Medicare Advantage subcontracts or by other means
20 that physicians delegate care of their contracted patients to the management company's
21 panel for approval of referrals, hospital and nursing home care, and put the physician at
22 financial risk if they fail to follow such mandates.

23
24 A member of the Council on Medical Service testified that the substitute language
25 offered by the Senior Physicians Section substantially changed the intent of Resolution
26 816 and suggested the item be referred for decision. Your Reference Committee agrees,
27 and recommends that Resolution 816 be referred for decision.

28
29 (20) RESOLUTION 806 - PHARMACEUTICAL INDUSTRY
30 DRUG PRICING IS A PUBLIC HEALTH EMERGENCY

31
32 RECOMMENDATION:

33
34 Madam Speaker, your Reference Committee recommends
35 that Resolution 806 not be adopted.

36
37 **HOD ACTION: Resolution 806 not adopted.**

38
39 Resolution 806 asks that our AMA request that the Secretary of Health and Human
40 Services declare pharmaceutical drug pricing a public health emergency under section
41 319 of the Public Health Service Act and that the Secretary take appropriate actions in
42 response to the emergency, including investigations into the cause, treatment, or
43 prevention of egregious pharmaceutical drug pricing.

44
45 There was mixed testimony on this resolution. Speakers, including members of the
46 Council on Medical Service and Council on Legislation, stressed that prescription drug
47 pricing falls outside the scope of a public health emergency as outlined in Section 319 of
48 the Public Health Service Act (PHSA). Section 319 of the PHSA confers the Secretary of
49 HHS with the authority to provide assistance to states and suspend legal requirements in
50 the face of disease or disorder presenting a public health emergency including infectious
51 disease outbreaks or bioterrorist attacks. Your Reference Committee concurs with

1 speakers that stressed that misusing this provision of Section 319 will not further efforts
2 to address prescription drug affordability. Furthermore, your Reference Committee
3 agrees with testimony that the AMA is unlikely to make a defensible case that high drug
4 prices constitute a disease or disorder. Your Reference Committee believes that our
5 AMA should continue its advocacy in this arena based on its strong and comprehensive
6 policy foundation that supports market-based strategies to achieve the affordability of
7 prescription drugs, include advocating for prescription drug price and cost transparency;
8 opposing "pay for delay" agreements; supporting shortening the exclusivity period for
9 biologics; and supporting efforts to ensure fair and appropriate pricing of generic
10 medications. As such, your Reference Committee recommends that Resolution 806 not
11 be adopted.

12
13 (21) RESOLUTION 820 - RETROSPECTIVE PAYMENT
14 DENIAL OF MEDICALLY APPROPRIATE STUDIES,
15 PROCEDURES AND TESTING

16
17 RECOMMENDATION:

18
19 Madam Speaker, your Reference Committee recommends
20 that Resolution 820 not be adopted.

21
22 **HOD ACTION: Resolution 820 referred with report back at**
23 **the 2017 Annual Meeting.**

24
25 Resolution 820 asks that our AMA advocate for legislation to require insurers' medical
26 policies to reflect current evidence-based medically appropriate studies and treatments
27 including those for rare and uncommon diseases; advocate for legislation to require
28 insurers to implement a streamlined process for exceptions for rare or uncommon
29 disease states; and advocate for legislation to prohibit insurers from using medical
30 coding as the sole justification to deny medical services and diagnostic or therapeutic
31 testing.

32
33 Your Reference Committee received no testimony on Resolution 820. Overall, your
34 Reference Committee does not believe legislating medical policies is appropriate.
35 Further, your Reference Committee does not know what exceptions are being requested
36 in the second Resolve and believes the clause is ambiguous. Regarding the third
37 Resolve, your Reference Committee believes it is a reaffirmation of current policy. Policy
38 H-70.914 was recently adopted at the 2016 Annual Meeting and states that the AMA
39 opposes limitations in coverage for medical services based solely on diagnostic code
40 specificity. Further, Policy H-70.958 requests that CMS ensure its carriers fully
41 understand and implement the distinction between coding to the "highest level of
42 specificity" within a code category and coding for the condition(s) to the "highest degree
43 of certainty." Your Reference Committee notes that, traditionally, when a diagnosis has
44 not been established or when a code does not exist for a specific rare disease, general
45 coding guidelines indicate that it is acceptable to use codes that describe signs and
46 symptoms. Additionally, as written, this Resolve may undermine the current payment
47 processing that allows for e-claims processing. As such, your Reference Committee
48 recommends that Resolution 820 not be adopted.

1 (22) RESOLUTION 803 - REDUCING PERIOPERATIVE
2 OPIOID CONSUMPTION

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends
7 that Policy D-120.947 be reaffirmed in lieu of Resolution
8 803.

9
10 **HOD ACTION: Policy D-120.947 reaffirmed in lieu of**
11 **Resolution 803.**

12
13 Resolution 803 asks that our AMA encourage hospitals to adopt practices for the
14 management of perioperative pain that include services dedicated to acute pain
15 management and the use of multimodal analgesia strategies aimed at minimizing opioid
16 administration without compromising adequate pain control during the perioperative
17 period.

18
19 Testimony on Resolution 803 was mixed, with substantial opposition to its adoption. A
20 majority of speakers were concerned with encouraging hospitals to adopt practices for
21 the management of perioperative pain that include services dedicated to acute pain
22 management and the use of multimodal analgesia during the perioperative period. Some
23 speakers viewed the resolution as overly prescriptive and as an unwanted mandate,
24 emphasizing that decisions regarding pain management should be left to physicians and
25 patients. Additionally, it was noted in testimony that pain management services may not
26 be available in rural hospitals.

27
28 A member of the Council on Medical Service suggested reaffirming existing policy in lieu
29 of Resolution 803. Additionally, the Council member pointed out that AMA advocacy
30 efforts and the work of the AMA's Task Force to Reduce Opioid Abuse emphasize
31 comprehensive pain management for all patients' pain whether it be perioperative,
32 acute, emergency or chronic. Your Reference Committee agrees with this sentiment and
33 recommends that Policy D-120.947 be reaffirmed in lieu of Resolution 803.

34
35 D-120.947 A More Uniform Approach to Assessing and Treating Patients for
36 Controlled Substances for Pain Relief

37 1. Our AMA will consult with relevant Federation partners and consider
38 developing by consensus a set of best practices to help inform the appropriate
39 clinical use of opioid analgesics, including risk assessment and monitoring for
40 substance use disorders, in the management of persistent pain. 2. Our AMA will
41 urge the Centers for Disease Control and Prevention to take the lead in
42 promoting a standard approach to documenting and assessing unintentional
43 poisonings and deaths involving prescription opioids, including obtaining more
44 complete information on other contributing factors in such individuals, in order to
45 develop the most appropriate solutions to prevent these incidents. 3. Our AMA
46 will work diligently with the Centers for Disease Control and Prevention and other
47 regulatory agencies to provide increased leeway in the interpretation of the new
48 guidelines for appropriate prescription of opioid medications in long-term care
49 facilities, in much the same way as is being done for hospice and palliative care.
50 (BOT Rep. 3, I-13; Appended: Res. 522, A-16)

1 (23) RESOLUTION 817 - BRAND AND GENERIC DRUG
2 COSTS

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends
7 that Policies D-100.983; H-120.934; H-120.945; D-
8 120.949; H-110.987; H-110.989; H-155.962 and H-
9 110.988 be reaffirmed in lieu of Resolution 817.

10
11 **HOD ACTION: Policies D-100.983; H-120.934; H-120.945; D-**
12 **120.949; H-110.987; H-110.989; H-155.962 and H-110.988**
13 **reaffirmed in lieu of Resolution 817.**
14

15 Resolution 817 asks that our AMA advocate for the following: 1. Investigate the
16 purchasing of medications from outside the country with FDA guidance, on a temporary
17 basis until availability in the U.S. improves; 2. Advocate to permit temporary
18 compounding with FDA’s guidance until medications are available; 3. Advocate to allow
19 increased competition in the marketing of medications; 4. Advocate for participative
20 pricing; 5. Advocate for accountability for outcomes; and 6. Advocate for increased
21 regulation of the generic drug market.

22
23 There was limited, mixed testimony on Resolution 817. While testimony appreciated the
24 intent of the resolution, speakers, including those from the Council on Legislation and
25 Council on Medical Service, stressed that existing policy more appropriately responds to
26 the issues outlined in the resolution. In addition, your Reference Committee notes that
27 the language of Resolution 817 may not contain necessary safeguards, which could
28 have unintended consequences. For example, supporting prescription drug
29 reimportation without a requirement for track and trace, a requirement outlined in Policy
30 D-100.983, could lead to significant safety concerns with the reimported prescription
31 drugs, which may not be at the same quality or chemical makeup as those currently
32 distributed in the US. There may also be unintended consequences associated with
33 calling for blanket increased regulation of the generic drug market, and as such your
34 Reference Committee believes that reaffirmation of Policy H-110.988 that outlines
35 measures to help control the increasing costs of generic prescription drugs may be more
36 appropriate. Your Reference Committee also notes that Council on Medical Service
37 Report 5, Incorporating Value into Pharmaceutical Pricing, discusses outcomes-based
38 pricing initiatives for prescription drugs, and presents recommendations to better
39 incorporate value into pharmaceutical pricing. Overall, your Reference Committee
40 believes that existing AMA policy appropriately responds to the issues raised in
41 Resolution 817, and as such recommends that Policies D-100.983; H-120.934; H-
42 120.945; D-120.949; H-110.987; H-110.989; H-155.962 and H-110.988 be reaffirmed in
43 lieu of the resolution.

44
45 D-100.983 Prescription Drug Importation and Patient Safety
46 Our AMA will: (1) support the legalized importation of prescription drug products
47 by wholesalers and pharmacies only if: (a) all drug products are Food and Drug
48 Administration (FDA)-approved and meet all other FDA regulatory requirements,
49 pursuant to United States laws and regulations; (b) the drug distribution chain is
50 "closed," and all drug products are subject to reliable, "electronic" track and trace
51 technology; and (c) the Congress grants necessary additional authority and

1 resources to the FDA to ensure the authenticity and integrity of prescription drugs
2 that are imported; (2) oppose personal importation of prescription drugs via the
3 Internet until patient safety can be assured; (3) review the recommendations of
4 the forthcoming report of the Department of Health and Human Services (HHS)
5 Task Force on Drug Importation and, as appropriate, revise its position on
6 whether or how patient safety can be assured under legalized drug importation;
7 and (4) educate its members regarding the risks and benefits associated with
8 drug importation and reimportation efforts. (BOT Rep. 3, I-04; Reaffirmation A-
9 09)

10
11 H-120.934 Appropriate Use of Compounded Medications in Medical Offices
12 Our American Medical Association supports regulatory changes to improve
13 access to (1) the compounding and repackaging of manufactured FDA-approved
14 drugs and substances usually prepared in the office-based setting and (2)
15 purchasing from compounding pharmacies of FDA-approved drugs, repackaged
16 or compounded for the purpose of in-office use. (Res. 207, A-15 Reaffirmed:
17 CMS Rep. 04, A-16 Reaffirmed: Res. 204, A-16)

18
19 H-120.945 Pharmacy Compounding
20 Our AMA: (1) recognizes that traditional compounding pharmacies must be
21 subject to state board of pharmacy oversight and comply with current United
22 States Pharmacopeia and National Formulary (USP-NF) compounding
23 monographs, when available, and recommends that they be required to conform
24 with USP-NF General Chapters on pharmaceutical compounding to ensure the
25 uniformity, quality, and safety of compounded medications; (2) encourages all
26 state boards of pharmacy to reference sterile compounding quality standards,
27 including but not limited to those contained in United States Pharmacopeia
28 Chapter 797, as the standard for sterile compounding in their state, and to satisfy
29 other relevant standards that have been promulgated by the state in its laws and
30 regulations governing pharmacy practice; (3) supports the view that facilities
31 (other than pharmacies within a health system that serve only other entities
32 within that health system) that compound sterile drug products without receiving
33 a prescription order prior to beginning compounding and introduce such
34 compounded drugs into interstate commerce be recognized as compounding
35 manufacturers subject to FDA oversight and regulation; (4) supports the view that
36 allowances must be made for the conduct of compounding practices that can
37 realistically supply compounded products to meet anticipated clinical needs,
38 including urgent and emergency care scenarios, in a safe manner; and (5) in the
39 absence of new federal legislation affecting the oversight of compounding
40 pharmacies, continues to encourage state boards of pharmacy and the National
41 Association of Boards of Pharmacy to work with the United States Food and
42 Drug Administration to identify and take appropriate enforcement action against
43 entities that are illegally manufacturing medications under the guise of pharmacy
44 compounding. (BOT Action in response to referred for decision Res. 521, A-06;
45 Revised: CSAPH Rep. 9, A-13)

46
47 D-120.949 Ensuring the Safe and Appropriate Use of Compounded Medications
48 Our AMA will: (1) monitor ongoing federal and state evaluations and
49 investigations of the practices of compounding pharmacies; (2) encourage the
50 development of regulations that ensure safe compounding practices that meet
51 patient and physician needs; and (3) report back on efforts to establish the

1 necessary and appropriate regulatory oversight of compounding pharmacy
2 practices. (Sub. Res. 923, I-12; Reaffirmed: Res. 204, A-16)

3
4 H-110.987 Pharmaceutical Cost

5 1. Our AMA encourages Federal Trade Commission (FTC) actions to limit
6 anticompetitive behavior by pharmaceutical companies attempting to reduce
7 competition from generic manufacturers through manipulation of patent
8 protections and abuse of regulatory exclusivity incentives. 2. Our AMA
9 encourages Congress, the FTC and the Department of Health and Human
10 Services to monitor and evaluate the utilization and impact of controlled
11 distribution channels for prescription pharmaceuticals on patient access and
12 market competition. 3. Our AMA will monitor the impact of mergers and
13 acquisitions in the pharmaceutical industry. 4. Our AMA will continue to monitor
14 and support an appropriate balance between incentives based on appropriate
15 safeguards for innovation on the one hand and efforts to reduce regulatory and
16 statutory barriers to competition as part of the patent system. 5. Our AMA
17 encourages prescription drug price and cost transparency among pharmaceutical
18 companies, pharmacy benefit managers and health insurance companies. 6. Our
19 AMA supports legislation to require generic drug manufacturers to pay an
20 additional rebate to state Medicaid programs if the price of a generic drug rises
21 faster than inflation. 7. Our AMA supports legislation to shorten the exclusivity
22 period for biologics. 8. Our AMA will convene a task force of appropriate AMA
23 Councils, state medical societies and national medical specialty societies to
24 develop principles to guide advocacy and grassroots efforts aimed at addressing
25 pharmaceutical costs and improving patient access and adherence to medically
26 necessary prescription drug regimens. 9. Our AMA will generate an advocacy
27 campaign to engage physicians and patients in local and national advocacy
28 initiatives that bring attention to the rising price of prescription drugs and help to
29 put forward solutions to make prescription drugs more affordable for all patients,
30 and will report back to the House of Delegates regarding the progress of the drug
31 pricing advocacy campaign at the 2016 Interim Meeting. (CMS Rep. 2, I-15)

32
33 H-110.989 Pay for Delay Arrangements by Pharmaceutical Companies

34 Our AMA supports: (1) the Federal Trade Commission in its efforts to stop "pay
35 for delay" arrangements by pharmaceutical companies and (2) federal legislation
36 that makes tactics delaying conversion of medications to generic status, also
37 known as "pay for delay," illegal in the United States.(Res. 520, A-08; Appended:
38 Res. 222, I-12; Reaffirmed: CMS 2, I-15)

39
40 H-155.962 Maximum Allowable Cost of Prescription Medications

41 Our AMA opposes the use of price controls in any segment of the health care
42 industry, and continues to promote market-based strategies to achieve access to
43 and affordability of health care goods and services.(CMS Rep. 2, A-07;
44 Reaffirmed in lieu of Res. 201, I-11; Reaffirmed: CMS Res. 2, I-15)

45
46 H-110.988 Controlling the Skyrocketing Costs of Generic Prescription Drugs

47 1. Our American Medical Association will work collaboratively with relevant
48 federal and state agencies, policymakers and key stakeholders (e.g., the U.S.
49 Food and Drug Administration, the U.S. Federal Trade Commission, and the
50 Generic Pharmaceutical Association) to identify and promote adoption of policies
51 to address the already high and escalating costs of generic prescription drugs. 2.

1 Our AMA will advocate with interested parties to support legislation to ensure fair
2 and appropriate pricing of generic medications, and educate Congress about the
3 adverse impact of generic prescription drug price increases on the health of our
4 patients. 3. Our AMA encourages the development of methods that increase
5 choice and competition in the development and pricing of generic prescription
6 drugs. 4. Our AMA supports measures that increase price transparency for
7 generic prescription drugs. (Sub. Res. 106, A-15; Reaffirmed: CMS 2, I-15)
8

1 Madam Speaker, this concludes the report of Reference Committee J. I would like to
2 thank Alyn L. Adrain, MD; Heidi M. Dunniway, MD; Stephen K. Epstein, MD, MPP; Raj
3 B. Lal, MD, MPA; Travis Meyer, MD; Vicki Wooll, MD, MPH; and all those who testified
4 before the Committee.
