Are You a Primary Care Clinician located in Georgia, Kentucky, North Carolina, or Tennessee?

WE WANT TO HEAR FROM YOU!

Despite tremendous potential for digital health tools to aid in the advancement of health equity, our prior research has identified gaps in technology adoption that impact high disparity populations.

The goal of the NCPC Digital Health Tools Survey is to assess how adoption and use of HIT affects underserved communities and health disparities in this region.

TAKE OUR DIGITAL HEALTH TOOL SURVEY PARTICIPANTS WILL RECEIVE A $50 GIFT CARD

This program is funded by the United Health Foundation.
