AMERICAN MEDICAL ASSOCIATION HOUSE OF DELEGATES (I-18)

Report of Reference Committee B

Francis P. MacMillan, Jr., MD, Chair

8 Your Reference Committee recommends the following consent calendar for acceptance:
9

10 **RECOMMENDED FOR ADOPTION**

- 11
12 1. Board of Trustees Report 4 – Increased Use of Body-Worn Cameras by Law
13 Enforcement Officers (Resolution 208-I-17)
14 2. Board of Trustees Report 8 – 340B Drug Discount Program (Resolution 225-A-18
15 Resolve 3)
16 3. Resolution 201 – Reimbursement for Services Rendered During Pendency of
17 Physician's Credentialing Application
18 4. Resolution 207 – Defense of Affirmative Action
19 5. Resolution 209 – Sexual Assault Education and Prevention in Public Schools
20 6. Resolution 217 – Opposition to Medicare Part B to Part D Changes
21 7. Resolution 226 – Support for Interoperability of Clinical Data
22 8. Resolution 229 – Addressing Surgery Performed by Optometrists
23

24 **RECOMMENDED FOR ADOPTION AS AMENDED**

- 25
26 9. Board of Trustees Report 5 – Exclusive State Control of Methadone Clinics
27 (Resolution 211-I-17)
28 10. Board of Trustees Report 7 – Advocacy for Seamless Interface Between
29 Physicians Electronic Health Records (EHRs), Pharmacies and Prescription Drug
30 Monitoring Programs (PDMPs) (Resolution 212-A-17; BOT Report 12-A-18)
31 11. Board of Trustees Report 11 – Violence Prevention (Resolution 419-A-18,
32 Resolves 1 and 3)
33 Resolution 213 – Increasing Firearm Safety to Prevent Accidental Child Deaths
34 Resolution 233 – Opposing Unregulated, Non-Commercial Firearm
35 Manufacturing
36 12. Resolution 205 – Legalization of the Deferred Action for Legal Childhood Arrival
37 (DALCA)
38 13. Resolution 208 – Increasing Access to Broadband Internet to Reduce Health
39 Disparities
40 14. Resolution 211 – Eliminating Barriers to Automated External Defibrillator Use
41 15. Resolution 212 – Development and Implementation of Guidelines for
42 Responsible Media Coverage of Mass Shootings

- 1 16. Resolution 216 – Medicare Part B Competitive Acquisition Program (CAP)
 2 17. Resolution 220 – Supporting Mental Health Training Programs for Corrections
 3 Officers and Crisis Intervention Teams for Law Enforcement
 4 18. Resolution 224 – Fairness in the Centers for Medicare & Medicaid Services
 5 Authorized Quality Improvement Organization's (QIO) Medical Care Review
 6 Process
 7 19. Resolution 232 – Opposition to Mandatory Licensing Requirements for Qualified
 8 Clinical Data Registries
 9 20. Resolution 235 – Inappropriate Use Of CDC Guidelines For Prescribing Opioids

10
 11 **RECOMMENDED FOR REFERRAL**

- 12
 13 21. Resolution 202 – Enabling Methadone Treatment of Opioid Use Disorder in
 14 Primary Care Settings
 15 22. Resolution 204 – Restriction on IMG Moonlighting
 16 23. Resolution 206 – Repealing Potential Penalties Associated with MIPS
 17 Resolution 231 – Reducing the Regulatory Burden in Health Care
 18

19 **RECOMMENDED FOR REFERRAL FOR DECISION**

- 20
 21 24. Resolution 210 – Forced Organ Harvesting for Transplantation
 22

23 **RECOMMENDED FOR NOT ADOPTION**

- 24
 25 25. Resolution 215 – Extending the Medical Home to Meet Families Wherever They
 26 Go
 27 26. Resolution 230 – Nonprofit Hospitals and Network Health Systems
 28 27. Resolution 234 – Negligent Credentialing Actions Against Hospitals
 29

30 **RECOMMENDED FOR REAFFIRMATION IN LIEU OF**

- 31
 32 28. Resolution 218 – Alternatives to Tort for Medical Liability
 33 29. Resolution 225 – “Surprise” Out of Network Bills
 34 30. Resolution 228 – Medication Assisted Treatment
 35

36 Resolutions handled via the Reaffirmation Consent Calendar:

- 37
 38 Resolution 203 – Support for the Development and Distribution of HIPAA-
 39 Compliant Communication Technologies
 40 Resolution 214 – A Public Health Case for Firearm Regulation
 41 Resolution 219 – Promotion and Education of Breastfeeding
 42 Resolution 221 – Regulatory Relief from Burdensome CMS "HPI" EHR
 43 Requirements
 44 Resolution 222 – Patient Privacy Invasion by the Submission of Fully Identified
 45 Quality Measure Data to CMS
 46 Resolution 223 – Permanent Reauthorization of the State Children's Health
 47 Insurance Program

1 (1) BOARD OF TRUSTEES REPORT 4 – INCREASED USE OF
2 BODY-WORN CAMERAS BY LAW ENFORCEMENT
3 OFFICERS (RESOLUTION 208-I-17)
4

5 RECOMMENDATION:
6

7 Madam Speaker, your Reference Committee recommends that
8 the Recommendation in Board of Trustees Report 4 be adopted
9 and the remainder of the report be filed.

10
11 **HOD ACTION: Board of Trustees Report 4 be referred.**
12

13 The Board of Trustees recommends that the following be adopted in lieu of Resolution 208-
14 1-17, and that the remainder of the report be filed. That our American Medical Association
15 work with interested state and national medical specialty societies to support state legislation
16 and/or regulation that would encourage the use of body-worn camera programs for law
17 enforcement officers and fund the purchase of body-worn cameras, training for officers and
18 technical assistance for law enforcement agencies.
19

20 Your Reference Committee commends the Board of Trustees for an excellent and thorough
21 board report. Your Reference Committee heard testimony largely in support of Board of
22 Trustees Report 4. There was some testimony questioning whether the issues being raised
23 were outside the expertise and scope of our AMA. The majority of the testimony, however,
24 emphasized that the use of body-worn cameras by law enforcement was a matter of public
25 health and directly related to existing AMA policy. The issues raised by this report are critical
26 and very timely. Your Reference Committee agrees with testimony urging adoption,
27 recognizing that there are nuances that will need to be addressed as our AMA works with
28 interested state and specialty societies during any given state legislative and/or regulatory
29 process. Your Reference Committee, therefore, recommends that Board of Trustees Report
30 4 be adopted.
31

32 (2) BOARD OF TRUSTEES REPORT 8 – 340B DRUG
33 DISCOUNT PROGRAM (RESOLUTION 225-A-18 RESOLVE
34 3)
35

36 RECOMMENDATION:
37

38 Madam Speaker, your Reference Committee recommends that
39 the Recommendation in Board of Trustees Report 8 be adopted
40 and the remainder of the report be filed.

41
42 **HOD ACTION: Board of Trustees Report 8 adopted and the**
43 **remainder of the report filed.**
44

45 The Board of Trustees recommends that the following recommendations be adopted in lieu
46 of the third resolve Resolution 225-A-18 and the remainder of this report be filed 1. That our
47 American Medical Association support a revised 340B drug discount program covered entity
48 eligibility formula, which appropriately captures the level of outpatient charity care provided by
49 hospitals, as well as standalone community practices. (New HOD Policy) 2. Our AMA will
50 confer with national medical specialty societies on providing policymakers with specific

1 recommended covered entity criteria for the 340B drug discount program. (Directive to Take
2 Action)

3
4 Your Reference Committee heard overwhelmingly supportive testimony on Board of Trustees
5 Report 8. Your Reference Committee heard testimony that there should be equity in payment
6 between community practice providers and those affiliated with hospitals. Your Reference
7 Committee also heard testimony that the 340B rebate program should ultimately benefit
8 patients who are underinsured or uninsured by providing rebates to those providers who
9 actually provide medical care and treatment to them. Additionally, your Reference Committee
10 heard testimony encouraging the collaboration with appropriate stakeholders when crafting
11 and providing recommendations on covered entity criteria in the 340B discount program to
12 policymakers. Accordingly, your Reference Committee recommends that Board of Trustees
13 Report 8 be adopted.

14
15 (3) RESOLUTION 201 – REIMBURSEMENT FOR SERVICES
16 RENDERED DURING PENDENCY OF PHYSICIAN'S
17 CREDENTIALING APPLICATION

18
19 RECOMMENDATION:

20
21 Madam Speaker, your Reference Committee recommends that
22 Resolution 201 be adopted.

23
24 **HOD ACTION: Resolution 201 adopted as amended.**

25
26 **RESOLVED, That our American Medical Association develop**
27 **model state legislation for physicians being credentialed by a**
28 **health plan to treat patients and retroactively receive**
29 **payments if they are ultimately credentialed or to be deemed**
30 **credentialed upon submission of a complete application if the**
31 **physician is part of a group practice with an existing contract**
32 **with that health plan.**

33
34 Resolution 201 asks that our American Medical Association develop model state legislation
35 for physicians being credentialed by a health plan to treat patients and retroactively receive
36 payments if they are ultimately credentialed. (Directive to Take Action)

37
38 Your Reference Committee heard strong testimony in support of the issues raised related to
39 Resolution 201 and therefore recommends adoption.

1 (4) RESOLUTION 207 – DEFENSE OF AFFIRMATIVE ACTION

2
3 RECOMMENDATION:

4
5 Madam Speaker, your Reference Committee recommends that
6 Resolution 207 be adopted.

7
8 **HOD ACTION: Resolution 207 adopted.**

9
10 Resolution 207 asks that our American Medical Association oppose legislation that would
11 undermine institutions' ability to properly employ affirmative action to promote a diverse
12 student population. (New HOD Policy)

13
14 Your Reference Committee heard supportive testimony for Resolution 207. Your Reference
15 Committee heard testimony that our AMA does have existing policy in support of creating a
16 diverse student population. Your Reference Committee heard testimony that our AMA filed
17 amicus briefs in *Fisher v. University of Texas at Austin*, and argued that racial diversity is a
18 vital component of a successful medical education and that medical school admission officers
19 should be allowed to consider applicants' race in order to achieve the schools' educational
20 goals. Your Reference Committee also heard testimony that existing AMA policy falls short in
21 addressing the necessity of affirmative action as mechanism for equality at the undergraduate
22 level, which is necessary to bolster the pool of minority students able to apply to a medical
23 program. Your Reference Committee agrees with this testimony and recommends adoption.

24
25 (5) RESOLUTION 209 – SEXUAL ASSAULT EDUCATION AND
26 PREVENTION IN PUBLIC SCHOOLS

27
28 RECOMMENDATION:

29
30 Madam Speaker, your Reference Committee recommends that
31 Resolution 209 be adopted.

32
33 **HOD ACTION: Resolution 209 adopted.**

34
35 Resolution 209 asks that our American Medical Association support state legislation
36 mandating that public middle and high school health education programs include age
37 appropriate information on sexual assault education and prevention, including but not limited
38 to topics of consent and sexual bullying. (Directive to Take Action)

39
40 Your Reference Committee heard overwhelming testimony in support of Resolution 209. The
41 issues raised by Resolution 209 are both urgent and timely. Your Reference Committee,
42 therefore, recommends adoption.

1 (6) RESOLUTION 217 – OPPOSITION TO MEDICARE PART B
2 TO PART D CHANGES

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends that
7 Resolution 217 be adopted.

8
9 **HOD ACTION: Resolution 217 adopted.**

10
11 Resolution 217 asks that our American Medical Association advocate against Medicare
12 changes which would recategorize Medicare Part B drugs into Part D. (New HOD Policy)

13
14 Your Reference Committee heard overwhelmingly supportive testimony on Resolution 217.
15 Your Reference Committee heard testimony that Congress and the Administration must do
16 more to address the high cost of physician administered drugs and access challenges. Your
17 Reference Committee also heard testimony that the Administration's proposal to move some
18 drugs from the Medicare Part B benefit to the Part D benefit will not result in lower costs to
19 Medicare beneficiaries and may disrupt the chain of custody needed to ensure that physician
20 administered drugs have not been adulterated or subjected to conditions that degrade the
21 efficacy or undermine the safety of the treatment. Accordingly, your Reference Committee
22 recommends adoption of Resolution 217.

23
24 (7) RESOLUTION 226 – SUPPORT FOR INTEROPERABILITY
25 OF CLINICAL DATA

26
27 RECOMMENDATION:

28
29 Madam Speaker, your Reference Committee recommends that
30 Resolution 226 be adopted.

31
32 **HOD ACTION: Resolution 226 adopted.**

33
34 Resolution 226 asks that our American Medical Association review and advocate for the
35 implementation of appropriate recommendations from the "Consensus Statement: Feature
36 and Function Recommendations to Optimize Clinician Usability of Direct Interoperability to
37 Enhance Patient Care," a physician-directed set of recommendations, to EHR vendors and
38 relevant federal offices such as, but not limited to, the Office of the National Coordinator, and
39 the Centers for Medicare and Medicaid Services. (Directive to Take Action)

40
41 Your Reference Committee heard supportive testimony on Resolution 226. Your Reference
42 Committee heard testimony that our AMA has strong policy regarding the development and
43 adoption of universal Electronic Health Records interoperability standards. Your Reference
44 Committee also heard testimony that our AMA is working to eliminate unjustified information
45 blocking and excessive costs which prevent data exchange. Your Reference Committee
46 further heard testimony that Resolution 226 would complement this existing AMA policy. You
47 Reference Committee also heard testimony in support of referral because Resolution 226
48 references a document outside our AMA's control. Your Reference Committee understands
49 these concerns but would note that the Resolution 226 explicitly state that our AMA only
50 advocate for appropriate recommendations in the document. Your Reference Committee
51 believes that it is a better use of our AMA resources to have our AMA advocate directly to

1 Office of the National Coordinator to promote interoperability on the appropriate
2 recommendations rather than drafting a report on interoperability. Accordingly, your
3 Reference Committee recommends that Resolution 226 be adopted.

4
5 (8) RESOLUTION 229 – ADDRESSING SURGERY
6 PERFORMED BY OPTOMETRISTS

7
8 RECOMMENDATION:

9
10 Madam Speaker, your Reference Committee recommends that
11 Resolution 229 be adopted.

12
13 **HOD ACTION: Resolution 229 adopted.**

14
15 Resolution 229 asks that our American Medical Association support legislation prohibiting
16 optometrists from performing surgical procedures as defined by AMA policies H-475.983,
17 “Definition of Surgery,” and H-475.988, “Laser Surgery” (New HOD Policy); and be it further
18 that our AMA encourage state medical associations to support state legislation and
19 rulemaking prohibiting optometrists from performing surgical procedures as defined by AMA
20 policies H-475.983, “Definition of Surgery,” and H-475.988, “Laser Surgery”. (New HOD
21 Policy).

22
23 Your Reference Committee heard overwhelming supportive testimony on Resolution 229 and
24 therefore recommends adoption.

25
26 (9) BOARD OF TRUSTEES REPORT 5 – EXCLUSIVE STATE
27 CONTROL OF METHADONE CLINICS (RESOLUTION 211-I-
28 17)

29
30 RECOMMENDATION A:

31
32 Madam Speaker, your Reference Committee recommends that
33 the Recommendation 1 of Board of Trustees Report 5 be
34 amended by deletion to read as follows:

35
36 1. That our American Medical Association (AMA) support the
37 right of federally certified Opioid Treatment Programs (OTPs) to
38 be located ~~within residential, commercial and any other areas~~
39 where there is a demonstrated medical need; (New HOD Policy)

40
41 RECOMMENDATION B:

42
43 Madam Speaker, your Reference Committee recommends that
44 the Recommendation in Board of Trustee Report 5 be adopted
45 as amended and the remainder of the report be filed.

46
47 **HOD ACTION: Board of Trustee Report 5 adopted as amended**
48 **and the remainder of the report filed.**

1 The Board of Trustees recommends that the following recommendation be adopted in lieu of
2 Resolution 211-1-17, and that the remainder of the report be filed. 1. That our American
3 Medical Association (AMA) support the right of federally certified Opioid Treatment Programs
4 (OTPs) to be located within residential, commercial and any other areas where there is a
5 demonstrated medical need; (New HOD Policy) 2. That our AMA encourage state
6 governments to collaborate with health insurance companies and other payers, state medical
7 societies, national medical specialty societies, OTPs and other health care organizations to
8 develop and disseminate resources that identify where OTP providers operate in a state and
9 take part in surveillance efforts to obtain timely and comprehensive data to inform treatment
10 opportunities; and (New HOD Policy) 3. That our AMA advocate for the federal agencies
11 responsible for approving opioid treatment programs to consider the views of state and local
12 stakeholders when making decisions about OTP locations and policies. (New HOD Policy)
13

14 Your Reference Committee heard supportive testimony on Board of Trustees Report 5. While
15 there was some testimony suggesting that states should be the sole arbiter of how Opioid
16 Treatment Programs (OTPs) should operate, your Reference Committee heard testimony that
17 strong data exists suggesting that OTPs are providing high-quality, evidence-based care to
18 hundreds of thousands of patients under a federal structure. Your Reference Committee
19 heard additional testimony that this federal structure appears to provide consistency while
20 also leaving many areas governing medical practice to state control. This information in the
21 Board Report and the testimony provided by proponents of the recommendations strongly
22 suggests that OTPs are one area where state and federal efforts are working well together.
23 Your Reference Committee heard further testimony that improvements to this structure can
24 be made. Your Reference Committee agrees with the Board that all stakeholders must work
25 together to an even greater extent to ensure that OTPs can prosper to an even greater extent
26 so that patients with an opioid use disorder have greater access to care. Your Reference
27 Committee heard testimony concerning retaining local control over placement of OTPs in
28 residential and commercial areas.
29

30 Your Reference Committee heard testimony that an additional Recommendation should be
31 added to the Board of Trustees Report 5 that our AMA support aligning 42 CFR Part 2 privacy
32 protections with current HIPAA regulations in an effort to promote improved coordination of
33 care for patients being treated for substance use disorder (SUD). Others testifying against
34 alignment stated that our AMA has strong policy protecting the confidentiality of patient
35 records and privacy rights of patients with SUD and that our AMA shares the goal of ensuring
36 that physicians have a patient's entire medical record to review and care for their patients.
37 Furthermore, your Reference Committee heard that 113 patient and provider groups oppose
38 alignment stating that federal SUD confidentiality rules must be maintained to protect patient
39 privacy and to encourage those with opioid and other substance use disorders to enter
40 treatment.
41

42 Testimony stated that our AMA encourages patients to consent to share SUD information to
43 help clinicians provide coordinated and holistic care. Your Reference Committee heard
44 testimony that our AMA believes that to balance privacy with access to information, and to
45 have truly coordinated care, patients must be willing and active participants. Testimony further
46 indicated that patients who refuse to sign a consent are the very patients who would be
47 deterred from seeking treatment if the laws were aligned, and, consequently, those patients
48 would be kept out of the treatment system without even providing them a chance to better
49 understand the benefits of providing consent.

1 Your Reference Committee heard further testimony that harmonization could negatively
2 impact privacy of a vulnerable population. SUDs are widely stigmatized and disclosure of
3 SUD-related information can have serious consequences for the patient. Testimony noted that
4 there exists significant confusion and misunderstanding of how Part 2 allows information to
5 be shared among clinicians and other parties, including payers, Accountable Care
6 Organizations, and Health Information Exchanges. Clarifying guidance and regulations would
7 be a meaningful step to help providers, payers, and patients understand rights and obligations
8 under the current law as well as existing opportunities for information sharing. Your Reference
9 Committee heard testimony that statutory and regulatory exceptions exist to the Part 2
10 consent requirements for emergency situations. Your Reference Committee also heard
11 testimony that there are workable solutions to electronically track patient consent through
12 EHRs that would be more effective in providing physicians with access to sensitive medical
13 records while maintaining robust patient privacy protections.

14
15 Your Reference Committee heard testimony raising concerns that alignment of the two laws
16 may not actually accomplish the goals of a professional being fully informed including:

- 17 • The current state of interoperability doesn't allow a physician to electronically access
18 all of a patient's information, often requiring physicians to resort to fax or paper
19 records. Many Part 2 facilities do not have EHRs. In most cases, alignment would not
20 change the availability of SUD information.
- 21 • Many states have adopted their own laws restricting disclosure of sensitive medical
22 information. Alignment will not preempt these more restrictive laws, which will further
23 confuse patients and clinicians about how SUD information can be shared.
- 24 • If a patient's medical record needs to be shared for any reason other than for
25 treatment, payment, or health care operations, a physician must remove all mentions
26 of SUD information, which will be highly burdensome and time-consuming for a
27 physician, likely needing to be done by hand.

28 Therefore, given the complexity and the differing views, your Reference Committee believes
29 that adding an additional Recommendation about aligning Part 2 with HIPAA to a Board of
30 Trustees Report regarding the exclusive state control of methadone clinics would not allow
31 our AMA and other interested physician groups the opportunity to fully consider this important
32 issue that directly implicates the access to appropriate treatment as well as strong patient
33 privacy protections. Accordingly, your Reference Committee recommends that Board of
34 Trustees Report 7 be adopted as amended.

35
36 (10) BOARD OF TRUSTEES REPORT 7 – ADVOCACY FOR
37 SEAMLESS INTERFACE BETWEEN PHYSICIANS
38 ELECTRONIC HEALTH RECORDS (EHRs), PHARMACIES
39 AND PRESCRIPTION DRUG MONITORING PROGRAMS
40 (PDMPs) (RESOLUTION 212-A-17; BOT REPORT 12-A-18)

41
42 RECOMMENDATION A:

43
44 Madam Speaker, your Reference Committee recommends that
45 the second Recommendation of Board of Trustees Report 7 be
46 amended by addition to read as follows:

47
48 2. That our AMA urge EHR vendors and Health Information
49 Exchanges (HIEs) to increase transparency of custom

1 connections and costs for physicians to integrate their products
2 in their practices. (Directive to Take Action)

3
4 RECOMMENDATION B:

5
6 Madam Speaker, your Reference Committee recommends that
7 the third Recommendation of Board of Trustees Report 7 be
8 amended by addition to read as follows

9
10 3. That our AMA support state-based pilot studies of best
11 practices to integrate EHRs, HIEs, EPCS, and PDMPs as well
12 as efforts to identify burdensome state and federal regulations
13 that prevent such integration from occurring. (New HOD policy)

14
15 RECOMMENDATION C:

16
17 Madam Speaker, your Reference Committee recommends that
18 Board of Trustees Report 7 be amended by addition of a new
19 Recommendation to read as follows:

20
21 That our AMA support initiatives to improve the functionality of
22 state PDMPs, including; (1) lessening the time delay between
23 when a prescription is dispensed and when the prescription
24 would be available to physicians through a PDMP; and (2)
25 directing state-based PDMP's to support improved integrated
26 EHR interfaces. (Directive to Take Action)

27
28 RECOMMENDATION D:

29
30 Madam Speaker, your Reference Committee recommends that
31 the recommendations in Board of Trustee Report 7 be adopted
32 as amended and the remainder of the report be filed.

33
34 **HOD ACTION: Board of Trustee Report 7 adopted as amended**
35 **and the remainder of the report filed.**
36

37 The Board of Trustees recommends that the following recommendations be adopted in lieu
38 of Resolution 212-A-17, and the remainder of the report be filed 1. That our American Medical
39 Association (AMA) advocate for a federal study to evaluate the use of PDMPs to improve pain
40 care as well as treatment for substance use disorders. This would include identifying whether
41 PDMPs can distinguish team-based care from uncoordinated care, misuse, or "doctor
42 shopping," as well as help coordinate care for a patient with a substance use disorder or other
43 condition requiring specialty care. (Directive to Take Action) 2. That our AMA urge EHR
44 vendors to increase transparency of custom connections and costs for physicians to integrate
45 their products in their practice. (Directive to Take Action) 3. That our AMA support state-based
46 pilot studies of best practices to integrate EHRs, EPCS and PDMPs as well as efforts to
47 identify burdensome state and federal regulations that prevent such integration from
48 occurring. (New HOD Policy)

49
50 Your Reference Committee heard supportive testimony on Board of Trustees Report 7.
51 Concern was raised, however, that the report did not go far enough. Several testified that the

1 issues raised are time sensitive and that our AMA needs to take a vocal and public stance on
2 the issues raised in the report. Your Reference Committee acknowledges the aggressive
3 advocacy our AMA is engaged in on the issues raised in this report as well as the extensive
4 work done by nearly all state medical societies in negotiating the political pressures associated
5 with rising mortality and the limited evidence showing PDMPs can help improve pain care.
6 Your Reference Committee agrees that physicians need to be aware of the importance of
7 checking PDMPs and that PDMP data needs to be incorporated into the EHR to truly improve
8 clinical decision making at the point of care. Despite progress being made in data integration,
9 your Reference Committee is concerned that each state is only in the initial stages of such
10 integration and reaching agreements with PDMP vendors may not take into account how
11 those agreements may ultimately pass costs along to physicians. While state PDMPs do not
12 charge physicians to access the PDMP, health systems and others do incur costs for
13 integrating HIE and PDMP data into EHRs. Each state does this differently. Further
14 complicating this is that there are some state laws that may limit PDMP funding. Your
15 Reference Committee received information that physicians have contacted our AMA and
16 reported that access to a PDMP via an EHR has resulted in compounding fees where the
17 EHR vendor, PDMP vendor, and additional third-party intermediaries separately charge
18 physicians, health systems or hospitals. Furthermore, your Reference Committee heard that
19 some states prohibit the use of certain sources of funding, or they rely predominantly on
20 federal grants, thus limiting the potential range of funding mechanisms. For instance, Florida
21 law specifically prohibits the use of state funds to support the PDMP—further tying PDMP
22 financing to physician-bound fees. Because of the need to be very careful and cognizant of
23 unintended consequences arising out of incredibly well intentioned proffered amendments,
24 your Reference Committee recommends that Board of Trustees Report 7 be adopted as
25 amended.

- 26
27 (11) BOARD OF TRUSTEES REPORT 11 – VIOLENCE
28 PREVENTION (RESOLUTION 419-A-18, RESOLVES 1 AND
29 3)
30 RESOLUTION 213 – INCREASING FIREARM SAFETY TO
31 PREVENT ACCIDENTAL CHILD DEATHS
32 RESOLUTION 233 – OPPOSING UNREGULATED, NON-
33 COMMERCIAL FIREARM MANUFACTURING

34
35 RECOMMENDATION A:

36
37 Madam Speaker, your Reference Committee recommends that
38 the Recommendation 1 of Board of Trustees Report 11 be
39 amended by addition and deletion to read as follows:

- 40
41 1. That Policy H-145.996, “Firearm Availability” be amended by
42 addition and deletion to read as follows:

43
44 H-145.996 Firearm Availability

- 45 1. Our AMA: (a) Advocates a waiting period and background
46 check for all firearm purchasers; (b) encourages legislation
47 that enforces a waiting period and background check for all
48 firearm purchasers; and (c) urges legislation to prohibit the
49 manufacture, sale or import of lethal and non-lethal guns
50 made of plastic, ceramics, or other non-metallic materials

1 that cannot be detected by airport and weapon detection
2 devices.

3
4 2. Our AMA policy ~~is to~~ supports requiring require the
5 licensing/permitting of owners of firearms-owners and
6 purchasers, including the completion of a required safety
7 course, and registration of all firearms.

8
9 ~~3. Our AMA supports granting local law enforcement~~
10 ~~discretion over whether to issue concealed carry permits, in~~
11 ~~the permitting process in such that local police chiefs are~~
12 ~~empowered to make permitting decisions regarding~~
13 ~~“concealed carry”, by supporting “gun violence restraining~~
14 ~~orders” for individuals arrested or convicted of domestic~~
15 ~~violence or stalking, and by supporting “red flag” laws for~~
16 ~~individuals who have demonstrated significant signs of~~
17 ~~potential violence. In supporting local law enforcement, we~~
18 ~~also support as well the importance of “due process” so that~~
19 ~~decisions could be reversible by individuals can petition~~
20 ~~petitioning in court for their rights to be restored. (Modify~~
21 ~~Current HOD Policy)~~

22
23 3. Our AMA supports “gun violence restraining orders” for
24 individuals arrested or convicted of domestic violence or
25 stalking, and supports extreme risk protection orders,
26 commonly known as “red-flag” laws, for individuals who have
27 demonstrated significant signs of potential violence. In
28 supporting restraining orders and “red-flag” laws, we also
29 support the importance of due process so that individuals
30 can petition for their rights to be restored. (Modify Current
31 HOD Policy)
32

33 RECOMMENDATION B:

34
35 Madam Speaker, your Reference Committee recommends that
36 recommendations of Board of Trustees Report 11 be amended
37 by addition of new Recommendations 4 and 5 to read as
38 follows.
39

40 4. That Policy H-145.990, “Prevention of Firearm Accidents in
41 Children” be amended by addition and deletion to read as
42 follows:
43 H-145.990, “Prevention of Firearm Accidents in Children”
44

45 Our AMA (1) supports increasing efforts to reduce pediatric
46 firearm morbidity and mortality by encouraging its members to
47 (a) inquire as to the presence of household firearms as a part of
48 childproofing the home; (b) educate patients to the dangers of
49 firearms to children; (c) encourage patients to educate their
50 children and neighbors as to the dangers of firearms; and (d)
51 routinely remind patients to obtain firearm safety locks, to store

1 firearms under lock and key, and to store ammunition
2 separately from firearms;(2) encourages state medical societies
3 to work with other organizations to increase public education
4 about firearm safety; ~~and~~ (3) encourages organized medical
5 staffs and other physician organizations, including state and
6 local medical societies, to recommend programs for teaching
7 firearm safety to children; and (4) support enactment of Child
8 Access Prevention laws that are consistent with AMA policy.
9

10 5. That Policy H-145.994, "Control of Non-Detectable Firearms"
11 be amended by addition to read as follows:

12
13 H-145.994, "Control of Non-Detectable Firearms"
14 The AMA supports a ban on the (1) manufacture, importation,
15 and sale of any firearm which cannot be detected by ordinary
16 airport screening devices, including 3D printed firearms and (2)
17 production and distribution of 3D firearm digital blueprints.
18

19 RECOMMENDATION C:

20
21 Madam Speaker, your Reference Committee recommends that
22 Board of Trustees Report 11 be adopted as amended in lieu of
23 Resolutions 213 and 233 and the remainder of the report be
24 filed.
25

26 **HOD ACTION: Board of Trustees Report 11 adopted as**
27 **amended in lieu of Resolutions 213 and 233 and the remainder**
28 **of the report filed.**
29

30 **3. That our American Medical Association: (1) encourages the**
31 **enactment of state laws requiring the reporting of all classes**
32 **of prohibited individuals ~~relevant mental health records~~, as**
33 **defined by state and federal law, to the National Instant**
34 **Criminal Background Check System (NICS); (2) supports**
35 **federal funding to provide grants to states to improve NICS**
36 **reporting; and (3) encourages states to automate the reporting**
37 **of ~~mental health records~~ relevant information to NICS to**
38 **improve the quality and timeliness of the data. (New HOD**
39 **Policy)**
40

41 The Board of Trustees recommends that the following recommendations be adopted in lieu
42 of the first and third resolves of Resolution 419-A-18 and the remainder of the report be filed.

43 1. That Policy H-145.996, "Firearm Availability" be amended by addition and deletion to read
44 as follows: H-145.996 Firearm Availability - 1. Our AMA: (a) Advocates a waiting period and
45 background check for all firearm purchasers; (b) encourages legislation that enforces a
46 waiting period and background check for all firearm purchasers; and (c) urges legislation to
47 prohibit the manufacture, sale or import of lethal and non-lethal guns made of plastic,
48 ceramics, or other non-metallic materials that cannot be detected by airport and weapon
49 detection devices. 2. Our AMA ~~policy is to~~ supports requiring ~~require~~ the licensing/permitting
50 ~~of owners of firearms-owners and purchasers, including the~~ completion of a required safety
51 course, and registration of all firearms. 3. Our AMA supports granting local law enforcement

1 ~~discretion over whether to issue concealed carry permits. in the permitting process in such~~
2 ~~that local police chiefs are empowered to make permitting decisions regarding “concealed~~
3 ~~carry”, by supporting “gun violence restraining orders” for individuals arrested or convicted of~~
4 ~~domestic violence or stalking, and by supporting “red flag” laws for individuals who have~~
5 ~~demonstrated significant signs of potential violence. In supporting local law enforcement, we~~
6 ~~also support as well the importance of “due process” so that decisions could be reversible by~~
7 ~~individuals can petition petitioning in court for their rights to be restored. (Modify Current HOD~~
8 ~~Policy) 2. That Policy H-145.972, “Firearms and High-Risk Individuals” be reaffirmed. Our~~
9 ~~AMA supports: (1) the establishment of laws allowing family members, intimate partners,~~
10 ~~household members, and law enforcement personnel to petition a court for the removal of a~~
11 ~~firearm when there is a high or imminent risk for violence; (2) prohibiting persons who are~~
12 ~~under domestic violence restraining orders, convicted of misdemeanor domestic violence~~
13 ~~crimes or stalking, from possessing or purchasing firearms; (3) expanding domestic violence~~
14 ~~restraining orders to include dating partners; (4) requiring states to have protocols or~~
15 ~~processes in place for requiring the removal of firearms by prohibited persons; (5) requiring~~
16 ~~domestic violence restraining orders and gun violence restraining orders to be entered into~~
17 ~~the National Instant Criminal Background Check System; and (6) efforts to ensure the public~~
18 ~~is aware of the existence of laws that allow for the removal of firearms from high-~~
19 ~~risk individuals. (Reaffirm HOD Policy) 3. That our American Medical Association: (1)~~
20 ~~encourages the enactment of state laws requiring the reporting of relevant mental health~~
21 ~~records, as defined by state and federal law, to the National Instant Criminal Background~~
22 ~~Check System (NICS); (2) supports federal funding to provide grants to states to improve~~
23 ~~NICS reporting; and (3) encourages states to automate the reporting of mental health records~~
24 ~~to NICS to improve the quality and timeliness of the data. (New HOD Policy). Resolution 213~~
25 ~~asks that our American Medical Association advocate for enactment of Child Access~~
26 ~~Prevention laws in all 50 states or as federal law. (New HOD Policy). Resolution 233 asks that~~
27 ~~our AMA support legislation that opposes: a) unregulated, non-commercial firearm~~
28 ~~manufacturing, such as via 3-D printing, regardless of the material composition or detectability~~
29 ~~of such weapons; b) production and distribution of 3-D firearm blueprints; and be it further that~~
30 ~~our AMA issue a statement of concern to Congress and the Bureau of Alcohol, Tobacco,~~
31 ~~Firearms and Explosives regarding the manufacturing of firearms using 3-D printers and the~~
32 ~~online dissemination of 3-D firearm blueprints as a public health issue.~~
33

34 Your Reference Committee heard mixed testimony on Board of Trustees Report 11. Your
35 Reference Committee heard that our AMA has extensive policy on firearm safety and violence
36 prevention including policy that supports requiring the licensing of firearm owners, including
37 completion of a required safety course and registration of all firearms. Your Reference
38 Committee heard testimony expressing concerns surrounding granting local law enforcement
39 discretion over whether to issue concealed carry permits and that these decisions may be
40 made arbitrarily and without just cause. However, testimony also indicated that our AMA
41 should support gun violence restraining orders and extreme risk protection orders, commonly
42 known as “red flag” laws, as currently stated in AMA policy H-145.996. Accordingly, your
43 Reference Committee recommends that Board of Trustees 11 be adopted with amendment.
44

45 Your Reference Committee heard generally supportive testimony on Resolution 213. Your
46 Reference Committee heard testimony that our AMA already has strong policy regarding the
47 prevention of unintentional shooting deaths among children and firearm accidents in children
48 including supporting efforts to reduce pediatric firearm morbidity and mortality. Your
49 Reference Committee also heard testimony in support of the intent behind Resolution 213 in
50 supporting Child Access Prevention (CAP) laws; however, the testimony raised concerns that
51 supporting all Child Access Prevention laws could be problematic because an individual

1 state's CAP law may be contrary to existing AMA policy. Accordingly, given the strong existing
2 AMA policy, your Reference Committee recommends adding a fourth recommendation to
3 Board of Trustees Report 11 to amend existing policy by incorporating the intent of Resolution
4 213 where the CAP law is consistent with AMA policy.

5
6 Your Reference Committee heard generally supportive testimony on Resolution 233. Your
7 Reference Committee heard testimony expressing concern regarding the accessibility of 3D
8 printers and the ability to easily fabricate 3D printed firearms. Your Reference Committee
9 heard testimony that using digital blueprints to a 3D printed firearms will increase access to
10 guns in an unregulated manner. Your Reference Committee also heard testimony that our
11 AMA already has policy supporting a ban on the manufacture, importation, and sale of any
12 firearm which cannot be detected by ordinary airport screening devices and that this policy
13 would cover 3D printed firearms. Testimony also indicated that a ban on all unregulated or
14 non-commercial firearms is too broad and does not take into account how states vary in
15 interpreting what are unregulated firearms. Accordingly, given the potential unintended
16 consequences and the focus of the Resolution 233 is on 3D firearms and digital blueprints,
17 your Reference Committee recommends adding a Fifth recommendation to Board of Trustees
18 Report 11 that existing policy be amended to specifically reference 3D printed firearms and
19 3D digital blueprints.

20
21 Therefore, your Reference Committee recommends that Board of Trustees Report 11 be
22 adopted as amended in lieu of Resolutions 213 and 233 and the remainder of the report be
23 filed.

24
25 (12) RESOLUTION 205 – LEGALIZATION OF THE DEFERRED
26 ACTION FOR LEGAL CHILDHOOD ARRIVAL (DALCA)

27
28 RECOMMENDATION A:

29
30 Madam Speaker, your Reference Committee recommends that
31 Policy D-255.979 be amended by addition as follows:

32
33 Our AMA will work with all relevant stakeholders to clear the
34 backlog for conversion from H1-B visas for physicians to
35 permanent resident status, and support dependents of
36 physicians on H-1B visas, who are admitted to the U.S. under
37 the H-4 nonimmigrant classification to remain in the U.S. legally
38 while their green card applications are pending.

39
40 RECOMMENDATION B:

41
42 Madam Speaker, your Reference Committee recommends that
43 Policy D-255.979 be adopted as amended in lieu of Resolution
44 205.

45
46 **HOD ACTION:** Resolution 205 be referred.

47
48 Resolution 205 asks that our American Medical Association support legalization of the
49 Deferred Action for Legal Childhood Arrival (DALCA) (New HOD Policy); and be it further; that
50 our AMA work with the appropriate agencies to allow DALCA children to start and finish

1 medical school and/or residency training until these DALCA children have officially become
2 legal. (Directive to Take Action)

3
4 Your Reference Committee heard mixed testimony on Resolution 205. Your Reference
5 Committee heard testimony that there are thousands of children who arrive in our country with
6 their H-1B physician parents legally. Your Reference Committee heard testimony that
7 physicians with H-1B visas may bring their immediate dependents, such as their children, to
8 the U.S. through the H-4 visa process; however, once their children turn 21 years of age they
9 are at risk for deportation because they have aged out and are no longer dependents admitted
10 to the U.S. under the H-4 non-immigration classification while their families' green cards are
11 caught in the H-1B visa backlog. Your Reference Committee heard testimony that Deferred
12 Action for Legal Childhood Arrival (DALCA), is a newly developed term used to draw a
13 distinction from Deferred Action for Childhood Arrivals (DACA) students and is not widely-
14 used by either immigration attorneys or public officials at the federal level. Your Reference
15 Committee also heard testimony that many of these H-4 visa children are in medical schools
16 or have already graduated from U.S. medical schools, but are subject to deportation because
17 they have reached the age of 21. Your Reference Committee further heard testimony that our
18 AMA already has strong policy regarding permanent residence status for physicians and that
19 Resolution 205 should be incorporated into this existing policy. Accordingly, your Reference
20 Committee recommends that current AMA policy D-255.979 be amended and adopted in lieu
21 of Resolution 205.

22
23 (13) RESOLUTION 208 – INCREASING ACCESS TO
24 BROADBAND INTERNET TO REDUCE HEALTH
25 DISPARITIES

26
27 RECOMMENDATION A:

28
29 Madam Speaker, your Reference Committee recommends that
30 Resolution 208 amended by addition to read as follows:

31
32 RESOLVED, That our AMA advocate for the expansion of
33 broadband and wireless connectivity to all rural and
34 underserved areas of the United States. (New HOD Policy)

35
36 RECOMMENDATION B:

37
38 Madam Speaker, your Reference Committee recommends that
39 Resolution 208 be adopted as amended.

40
41 **HOD ACTION: Resolution 208 adopted as amended.**

42
43 **RESOLVED, That our AMA advocate for the expansion of**
44 **broadband and wireless connectivity to all rural and**
45 **underserved areas of the United States while at all times**
46 **taking care to protecting existing federally licensed radio**
47 **services from harmful interference that can be caused by**
48 **broadband and wireless services. (New HOD Policy)**

49
50 Resolution 208 asks that our American Medical Association advocate for the expansion of
51 broadband connectivity to all rural areas of the United States. (New HOD Policy)

1 Your Reference Committee heard overwhelmingly supportive testimony on Resolution 208.
2 Your Reference Committee heard testimony that to address the access challenges in rural
3 and other underserved areas that lack broadband and wireless connectivity, it is essential to
4 advocate adequate federal support so that residents have access to digital health modalities.
5 Your Reference Committee also heard testimony that innovations in health care delivery will
6 increasingly rely on connectivity that is reliable, adequate, and affordable. In line with our
7 AMA's effort to develop, support, and implement digital health technology across the United
8 States, your Reference Committee recommends adoption of Resolution 208 with an
9 amendment to include wireless in addition to broadband and underserved communities as
10 well as rural.

11
12 (14) RESOLUTION 211 – ELIMINATING BARRIERS TO
13 AUTOMATED EXTERNAL DEFIBRILLATOR USE

14
15 RECOMMENDATION A:

16
17 Madam Speaker, your Reference Committee recommends that
18 third Resolve of Resolution 211 be amended by addition and
19 deletion to be read as follows:

20
21 RESOLVED That our AMA support consistent and uniform
22 legislation across states for the legal protection of ~~untrained~~
23 ~~personnel~~ those who use AEDs in the course of attempting to
24 aid a sudden cardiac arrest victim. (Directive to Take Action)

25
26 RECOMMENDATION B:

27
28 Madam Speaker, your Reference Committee recommends that
29 Resolution 211 be adopted as amended.

30
31 **HOD ACTION: Resolution 211 adopted as amended.**

32
33 Resolution 211 asks that our American Medical Association update its policy on
34 cardiopulmonary resuscitation and automated external defibrillators (AEDs) by endorsing
35 efforts to promote the importance of AED use and public awareness of AED locations, by
36 using solutions such as integrating AED sites into widely accessible mobile maps and
37 applications (New HOD Policy); and be it further that our AMA urge AED vendors to remove
38 labeling from AED stations that stipulate that only trained medical professionals can use the
39 defibrillators (Directive to Take Action); and be it further that our AMA support consistent and
40 uniform legislation across states for the legal protection of untrained personnel who use AEDs
41 in the course of attempting to aid a sudden cardiac arrest victim. (Directive to Take Action)

42
43 Your Reference Committee heard strong testimony in support of Resolution 211. Your
44 Reference Committee heard testimony that Resolution 211 will help increase use of AEDs in
45 public sudden cardiac arrest events. Your Reference Committee agrees with testimony that
46 the term "untrained personnel" should to be deleted as it is confusing and ambiguous. Your
47 Reference Committee heard testimony that by deleting this term, resulting policy will be
48 unambiguous and consistent with the reasonable person standard that currently underlies
49 Good Samaritan laws across the country. Accordingly, your Reference Committee
50 recommends that Resolution 211 be adopted as amended.

1 (15) RESOLUTION 212 – DEVELOPMENT AND
2 IMPLEMENTATION OF GUIDELINES FOR RESPONSIBLE
3 MEDIA COVERAGE OF MASS SHOOTINGS
4

5 RECOMMENDATION:
6

7 Madam Speaker, your Reference Committee recommends that
8 the following alternate resolution be adopted in lieu of
9 Resolution 212:

10
11 DEVELOPMENT AND IMPLEMENTATION OF
12 RECOMMENDATIONS FOR RESPONSIBLE MEDIA
13 COVERAGE OF MASS SHOOTINGS
14

15 RESOLVED, that our AMA encourage the Centers for Disease
16 Control and Prevention, in collaboration with other public and
17 private organizations, to develop recommendations or best
18 practices for media coverage of mass shootings. (New HOD
19 Policy)
20

21 **HOD ACTION: The alternate resolution adopted in lieu of**
22 **Resolution 212:**
23

24 Resolution 212 asks that our American Medical Association encourage the Centers for
25 Disease Control and Prevention, the National Institute of Mental Health, the Associated Press
26 Managing Editors, the National Press Photographers Association, and other relevant
27 organizations to develop guidelines for media coverage of mass shootings in a manner that
28 is unlikely to provoke additional incidents. (New HOD Policy)
29

30 Your Reference Committee heard supportive testimony on Resolution 212. Testimony was
31 provided that research suggests that an incident of a mass shooting increases the probability
32 of another mass shooting in the immediate future, and the contagion effect was demonstrated
33 in the mid-1990's with suicides, which led to the development of media coverage guidelines
34 by the Centers for Disease Control and Prevention (CDC), the World Health Organization,
35 and media organizations. Your Reference Committee also heard testimony that
36 recommended that the resolution be amended to encourage the development of
37 recommendations or best practices by the CDC, in collaboration with other public and private
38 organizations, rather than "guidelines," for media coverage of mass shootings, and that the
39 following language in the resolved clause should be deleted since it is too vague: "in a manner
40 that is unlikely to provoke additional incidents." Accordingly, your Reference Committee
41 recommends that an alternate resolution be adopted in lieu of Resolution 212.

1 (16) RESOLUTION 216 – MEDICARE PART B COMPETITIVE
2 ACQUISITION PROGRAM (CAP)

3
4 RECOMMENDATION A:

5
6 Madam Speaker, your Reference Committee recommends that
7 Resolution 216 be amended by addition and deletion to read as
8 follows:

9
10 RESOLVED, That our AMA advocate that any revised Medicare
11 Part B Competitive Acquisition Program meet the following
12 standards to improve the value of the program by lowering the
13 cost of drugs without undermining quality of care:

14 (1) it must be genuinely voluntary and not penalize practices
15 ~~which that~~ choose not to participate;

16 (2) it should provide supplemental payments to ~~support complex~~
17 ~~care coordination and management for cancer patients,~~
18 ~~including reimbursement for costs associated with the~~
19 ~~administration of anticancer drugs such as special handling and~~
20 storage for Part B hazardous drugs

21 (3) it must not reduce reimbursement for services related to
22 provision/administration of Part B drugs, and reimbursement
23 should be indexed to an appropriate healthcare inflation rate;

24 ~~(3)~~(4) it should permit flexibility such as allowing for variation in
25 orders that may occur on the day of treatment, and allow for the
26 use of CAP-acquired drugs at multiple office locations;

27 ~~(4)~~(5) it should allow practices to choose from multiple vendors
28 to ensure competition, and should also ensure that vendors
29 meet appropriate safety and quality standards;

30 ~~(5)~~(6) it should include robust and comprehensive patient
31 protections which include preventing delays in treatment,
32 helping patients find assistance or alternative payment
33 arrangements if they cannot meet the cost-sharing
34 responsibility, and vendors should bear the risk of non-payment
35 of patient copayments in a way that does not penalize the
36 physician;

37 ~~(6)~~ it should not be tied to negotiated discounts (7) it should not
38 allow vendors to restrict patient access using utilization
39 management policies such as step therapy; and

40 ~~(7)~~(8) it should not force disruption of current systems which
41 have evolved to ensure patient access to necessary
42 medications.

43
44 RECOMMENDATION B:

45
46 Madam Speaker, your Reference Committee recommends that
47 Resolution 216 be adopted as amended.

48
49 **HOD ACTION: Resolution 216 adopted as amended**

1 Resolution 216 asks that our American Medical Association advocate that any revised
2 Medicare Part B Competitive Acquisition Program meet the following standards to improve
3 the value of the program by lowering the cost of drugs without undermining quality of care: (1)
4 it must be genuinely voluntary and not penalize practices which choose not to participate; (2)
5 it should provide supplemental payments to support complex care coordination and
6 management for cancer patients, including reimbursement for costs associated with the
7 administration of anticancer drugs such as special handling and storage for hazardous drugs;
8 (3) it should permit flexibility such as allowing for variation in orders that may occur on the day
9 of treatment, and allow for the use of CAP-acquired drugs at multiple office locations; (4) it
10 should allow practices to choose from multiple vendors to ensure competition, and should also
11 ensure that vendors meet appropriate safety and quality standards; (5) it should include robust
12 and comprehensive patient protections which include preventing delays in treatment, helping
13 patients find assistance or alternative payment arrangements if they cannot meet the cost-
14 sharing responsibility, and vendors should bear the risk of non-payment of patient copayments
15 in a way that does not penalize the physician; and (6) it should not be tied to negotiated
16 discounts such as rebates to pharmacy benefit managers given in exchange for implementing
17 utilization management policies like step therapy. (New HOD Policy)

18
19 Your Reference Committee heard supportive testimony on Resolution 216. Your Reference
20 Committee heard testimony that the physicians in community practice must have access to
21 affordable Part B drugs and the payment should cover actual costs. Your Reference
22 Committee also heard testimony that a new competitive acquisition program should account
23 for all of the issues raised in the resolved of this resolution. Your Reference Committee heard
24 testimony of an amendment that included a provision that our AMA oppose models that do
25 not meet the criteria set out in Resolution 216. Your Reference Committee believes that this
26 language could hamper our AMA's efforts to advocate and negotiate on this important issue
27 because future alternatives may be offered and our AMA may not be able to support
28 potentially beneficial options. Therefore, your Reference Committee recommends adoption of
29 Resolution 216 as amended.

30
31 (17) RESOLUTION 220 – SUPPORTING MENTAL HEALTH
32 TRAINING PROGRAMS FOR CORRECTIONS OFFICERS
33 AND CRISIS INTERVENTION TEAMS FOR LAW
34 ENFORCEMENT

35
36 RECOMMENDATION A:

37
38 Madam Speaker, your Reference Committee recommends that
39 Resolution 220 be amended by addition and deletion to read as
40 follows.

41
42 RESOLVED, That our American Medical Association support
43 legislation and federal funding for evidence-based training
44 programs by qualified professionals aimed at educating
45 corrections officers in effectively interacting with ~~mentally ill~~
46 populations people with mental health diagnoses in federal
47 prisons all detention and correction facilities. (New HOD Policy)

1 RECOMMENDATION B:

2
3 Madam Speaker, your Reference Committee recommends that
4 Resolution 220 be adopted as amended.

5
6 **HOD ACTION: Resolution 220 adopted as amended.**

7
8 **RESOLVED, That our American Medical Association support**
9 **legislation and federal funding for evidence-based training**
10 **programs by qualified mental health professionals aimed at**
11 **educating corrections officers in effectively interacting with**
12 **mentally ill populations people with mental health and other**
13 **behavioral issues diagnoses in federal prisons all detention**
14 **and correction facilities. (New HOD Policy)**

15
16 Resolution 220 asks that our American Medical Association support legislation and federal
17 funding for evidence-based training programs aimed at educating corrections officers in
18 effectively interacting with mentally ill populations in federal prisons. (New HOD Policy)

19
20 Your Reference Committee heard supportive testimony on Resolution 220, which addresses
21 the important issues of mental health training programs for corrections officers and crisis
22 intervention teams for law enforcement. Your Reference Committee heard further testimony
23 that corrections officers can play a vital role in the proper treatment of offenders with mental
24 illness but generally receive very little training in mental health issues, making violence
25 between inmates and officers commonplace.

26
27 Your Reference Committee also heard testimony that our AMA already has strong policy
28 supporting mental health crisis interventions, H-345.972, "Mental Health Crisis Interventions",
29 as a means for jail diversion and community-based treatment options for those with severe
30 mental illness. Testimony further indicated that AMA policy also supports federal funding to
31 encourage increased community and law enforcement participation training including
32 evidence-based crisis intervention training programs, as they have been shown efficacious in
33 promoting jail diversion for individuals experiencing a mental-health related crisis. However,
34 this policy does not specifically apply to educating and supporting law enforcement officials in
35 federal or state prisons. Your Reference Committee heard testimony (1) that evidence-based
36 training programs should be conducted by qualified professionals; (2) to change "mentally ill
37 populations" to "people with mental health diagnoses"; and (3) to change "federal prisons" to
38 be more expansive and cover "all detention and correction facilities." Accordingly, your
39 Reference Committee agrees with these changes and recommends that Resolution 220 be
40 adopted as amended.

41
42 (18) RESOLUTION 224 – FAIRNESS IN THE CENTERS FOR
43 MEDICARE & MEDICAID SERVICES AUTHORIZED
44 QUALITY IMPROVEMENT ORGANIZATION'S (QIO)
45 MEDICAL CARE REVIEW PROCESS

46
47 RECOMMENDATION A:

48
49 Madam Speaker, your Reference Committee recommends that
50 Resolution 224 be amended by addition and deletion to read as
51 follows:

1 RESOLVED, that our American Medical Association advocate
2 ~~seek by regulation and/or legislation to change amend~~ the
3 Centers for Medicare and Medicaid Services (CMS) quality
4 improvement organization (QIO) process to mandate an
5 opportunity for practitioners and/or providers to request an
6 additional review when the QIO initial determination peer review
7 and the QIO reconsideration peer review are in conflict
8 (Directive to Take Action)

9
10 RESOLVED, that our AMA advocate ~~seek by regulation and/or~~
11 ~~legislation~~ to require CMS authorized QIOs to disclose to
12 practitioners and/or providers when the QIO peer reviewer is not
13 a peer match and is reviewing a case outside of their area of
14 expertise (Directive to Take Action);

15
16 RESOLVED, that our AMA advocate ~~seek by regulation and/or~~
17 ~~legislation~~ to require CMS authorized QIOs to disclose in their
18 annual report, the number of peer reviews performed by
19 reviewers without the same expertise as the physician being
20 reviewed. (Directive to Take Action)

21
22 RECOMMENDATION B:

23
24 Madam Speaker, your Reference Committee recommends that
25 Resolution 224 be adopted as amended.

26
27 **HOD ACTION: Resolution 224 adopted as amended.**

28
29 Resolution 224 asks that our American Medical Association seek by regulation and/or
30 legislation to amend the Centers for Medicare and Medicaid Services (CMS) quality
31 improvement organization (QIO) process to mandate an opportunity for practitioners and/or
32 providers to request an additional review when the QIO initial determination peer review and
33 the QIO reconsideration peer review are in conflict (Directive to Take Action); and be it further,
34 that our AMA seek by regulation and/or legislation to require CMS authorized QIOs to disclose
35 to practitioners and/or providers when the QIO peer reviewer is not a peer match and is
36 reviewing a case outside of their area of expertise (Directive to Take Action); and be it further,
37 that our AMA seek by regulation and/or legislation to require CMS authorized QIOs to disclose
38 in their annual report, the number of peer reviews performed by reviewers without the same
39 expertise as the physician being reviewed. (Directive to Take Action)

40
41 Your Reference Committee heard supportive testimony on Resolution 224. Your Reference
42 Committee heard testimony that our AMA has existing policy regarding Quality Improvement
43 Organization (QIO), including offering due process and fairness for physicians, requiring
44 physician consent before disclosure of QIO review determinations, mandating the utilization
45 of specialty-specific physician reviewers, and to annually publish the names of physician
46 reviewers with credentials and specialties. Your Reference Committee heard further testimony
47 that our AMA submitted to CMS a letter in October that implements the Resolves of Resolution
48 224. This letter includes advocating for similar due process procedures for physicians and
49 patients, allowing for physician-to-physician conversations at the second level of review,
50 notifying physicians when a peer reviewer does not have similar expertise or specialty as the
51 physician subject to the QIO process, and to disclose the number of peer reviews performed

1 by reviewers without the same expertise. However, your Reference Committee also heard
2 testimony that existing AMA policy does not specifically address the issues identified in
3 Resolution 224. Your Reference Committee believes that Resolution 224 should be amended
4 to provide flexibility to our AMA in its advocacy activities to include potentially resolving the
5 issues with CMS through subregulatory actions or other activities that are not explicitly
6 regulation or legislation. Accordingly, your Reference Committee recommends that Resolution
7 224 be adopted as amended.

8
9 (19) RESOLUTION 232 – OPPOSITION TO MANDATORY
10 LICENSING REQUIREMENTS FOR QUALIFIED CLINICAL
11 DATA REGISTRIES

12
13 RECOMMENDATION:

14
15 Madam Speaker, your Reference Committee recommends that
16 the following alternate resolution be adopted in lieu of
17 Resolution 232.

18
19 **HOD ACTION: The alternate resolution adopted in lieu of**
20 **Resolution 232.**

21
22 RESOLVED, that our American Medical Association (AMA)
23 oppose any Centers for Medicare and Medicaid Services (CMS)
24 proposal that would require Qualified Clinical Data Registries
25 (QCDR) measure owners, as a condition of measure approval
26 for reporting in Merit-based Incentive Payment System (MIPS)
27 and other Medicare quality payment programs, to enter into a
28 free license agreement with CMS that would allow other QCDRs
29 to use the owner's measures without a direct license with the
30 measure owner; and be it further (Directive to Take Action)

31
32 RESOLVED, that our AMA oppose any CMS proposal that
33 would require inclusion of CMS as a party in a QCDR measure
34 licensing agreement between the QCDR measure owner and
35 another; and be it further (Directive to Take Action)

36
37 RESOLVED, that our AMA support in situations where QCDR
38 measures are shared between the original measure owner and
39 another QCDR, that the latter QCDR:

- 40
41 1. Must adhere to certain standards and terms set out by the
42 QCDR measure owner on measure implementation and data
43 capture, including data validity and reliability, plus fair
44 remuneration for measure development and ongoing measure
45 stewardship.
46 2. Must have demonstrated clinical expertise in medicine,
47 quality measure development and improvement by providing
48 methods to ensure data quality, routine metric reporting, and
49 quality improvement consultation. (New HOD Policy)

1 Resolution 232 asks that our American Medical Association actively oppose any Centers for
2 Medicare & Medicaid Services (CMS) proposal that would require qualified clinical data
3 registry (QCDR) measure owners, as a condition of measure approval for reporting in the
4 Merit-based Incentive Payment System and other Medicare quality payment programs, to
5 enter into a license agreement with CMS that would allow other QCDRs to use the owner's
6 measures without a fee or without a direct license with the measure owner. (Directive to Take
7 Action)

8
9 Your Reference Committee heard generally supportive testimony for Resolution 232. Your
10 Reference Committee heard testimony that our AMA opposed the CMS proposal to
11 undermine QCDR measure ownership and development in the physician fee schedule. Your
12 Reference Committee also heard testimony that CMS did not finalize the proposal. Your
13 Reference Committee heard further testimony that even though CMS did not finalize the
14 proposal, this issue may come up again in future rulemaking. An amendment was offered to
15 address the concerns of Resolution 232 through adherence to and implementation of
16 standards and terms set by a specialty's QCDR including demonstrating clinical expertise and
17 providing methods to ensure data quality. Your Reference Committee understands that the
18 first Resolve means that our AMA would oppose CMS requiring QCDR measure owners as a
19 condition of measure approval to enter into a free license agreement. Your Reference
20 Committee further understands that Resolution 232 does not prevent QCDR measure owners
21 from providing to CMS the QCDR measures for free. Accordingly, your Reference Committee
22 recommends that an alternate resolution that reflects these amendments be adopted in lieu
23 of Resolution 232.

24
25 (20) RESOLUTION 235 – INAPPROPRIATE USE OF CDC
26 GUIDELINES FOR PRESCRIBING OPIOIDS

27
28 RECOMMENDATION:

29
30 Madam Speaker, your Reference Committee recommends that
31 the following alternate resolution be adopted in lieu of
32 Resolution 235:

33
34 **HOD ACTION: The alternate resolution adopted in lieu of**
35 **Resolution 235:**

36
37 RESOLVED, that our American Medical Association (AMA)
38 applaud the Centers for Disease Control and Prevention (CDC)
39 for its efforts to prevent the incidence of new cases of opioid
40 misuse, addiction, and overdose deaths (Directive To Take
41 Action)

42
43 RESOLVED, that our AMA actively continue to communicate
44 and engage with the nation's largest pharmacy chains,
45 pharmacy benefit managers, National Association of Insurance
46 Commissioners, Federation of State Medical Boards, and
47 National Association of Boards of Pharmacy in opposition to
48 communications being sent to physicians that include a blanket
49 proscription against filing prescriptions for opioids that exceed
50 numerical thresholds without taking into account the diagnosis
51 and previous response to treatment for a patient and any clinical

1 nuances that would support such prescribing as falling within
2 standards of good quality patient care. (Report back at A-19)
3 (Directive To Take Action)
4

5 RESOLVED, that Policies H-120.924, D-95.987, D-160.981, H-
6 265.998, and H-220.951 be reaffirmed. (Reaffirm Existing HOD
7 Policy)
8

9 RESOLVED, that our AMA affirms that some patients with acute
10 or chronic pain can benefit from taking opioid pain medications
11 at doses greater than generally recommended in the CDC
12 Guideline for Prescribing Opioids for Chronic Pain and that such
13 care may be medically necessary and appropriate, and be it
14 further
15

16 RESOLVED, that our AMA advocate against misapplication of
17 the CDC Guideline for Prescribing Opioids by pharmacists,
18 health insurers, pharmacy benefit managers, legislatures, and
19 governmental and private regulatory bodies in ways that
20 prevent or limit patients' medical access to opioid analgesia,
21 and be it further
22

23 RESOLVED, that our AMA advocate that no entity should use
24 MME (morphine milligram equivalents) thresholds as anything
25 more than guidance, and physicians should not be subject to
26 professional discipline, loss of board certification, loss of clinical
27 privileges, criminal prosecution, civil liability, or other penalties
28 or practice limitations solely for prescribing opioids at a
29 quantitative level above the MME thresholds found in the CDC
30 Guideline for Prescribing Opioids."
31

32 Resolution 235 asks that our American Medical Association applaud the Centers for Disease
33 Control and Prevention (CDC) for its efforts to prevent the incidence of new cases of opioid
34 misuse, addiction, and overdose deaths; and be it further, that no entity should use MME
35 (morphine milligram equivalents) thresholds as anything more than guidance and that MME
36 thresholds should not be used to completely prohibit the prescribing of, or the filling of
37 prescriptions for, medications used in oncology care, palliative medicine care, and addiction
38 medicine care (New HOD Policy); and be it further, that our AMA communicate with the
39 nation's largest pharmacy chains and pharmacy benefit managers to recommend that they
40 cease and desist with writing threatening letters to physicians and cease and desist with
41 presenting policies, procedures and directives to retail pharmacists that include a blanket
42 proscription against filling prescriptions for opioids that exceed certain numerical thresholds
43 without taking into account the diagnosis and previous response to treatment for a patient and
44 any clinical nuances that would support such prescribing as falling within standards of good
45 quality patient care (New HOD Policy); and be it further, that AMA Policy opposing the
46 legislating of numerical limits on medication dosage, duration of therapy, numbers of
47 pills/tablets, etc., be reaffirmed (Reaffirm HOD Policy); and be it further, that physicians should
48 not be subject to professional discipline or loss of board certification or loss of clinical
49 privileges simply for prescribing opioids at a quantitative level that exceeds the MME
50 thresholds found in the CDC Guidelines (New HOD Policy); and be it further, that our AMA
51 encourage the Federation of State Medical Boards and its member boards, medical specialty

1 societies, and other entities (including, possibly, the CDC) to develop improved guidance on
2 management of pain and management of potential withdrawal syndromes and other aspects
3 of patient care for “legacy patients” who may have been treated for extended periods of time
4 with high-dose opioid therapy for chronic non-malignant pain. (New HOD Policy)

5
6 Your Reference Committee heard supportive testimony of the intent of Resolution 235. Your
7 Reference Committee heard testimony that the third resolve should be amended to reflect that
8 our AMA is already working with national pharmacy chains regarding physicians who have
9 received letters about exceeding numerical thresholds. Your Reference Committee also heard
10 testimony that our AMA already has strong policy regarding many of the resolves in Resolution
11 235, including opposing specific doses or durations limits on pharmacologic therapy not
12 supported by medical evidence and protecting due process for medical staff, professional
13 discipline, and board certifications that covers physicians being subject to professional actions
14 for prescribing opioids at a quantitative level that exceeds CDC guidelines. Further testimony
15 indicated that it would redundant to ask FSMB to develop improved guidance because our
16 AMA’s “End the Epidemic” website has more than 400 state- and specialty-specific resources.
17 Accordingly, your Reference Committee recommends that an alternate resolution be adopted
18 in lieu of Resolution 235, including reaffirming existing policy.

19
20 Evaluating Actions by Pharmacy Benefit Manager and Payer Policies on Patient Care
21 H-120.924

22 Our AMA will: (1) urge the National Association of Boards of Pharmacy, Federation of
23 State Medical Boards (FSMB), and National Association of Insurance Commissioners
24 (NAIC) to support having national pharmacy chains, health insurance companies, and
25 pharmacy benefits managers (PBMs) testify at state-level public hearings by state
26 medical/pharmacy boards and state departments of insurance, on whether the
27 pharmacy chains, health insurance companies, and PBMs’ policies to restrict the
28 prescribing/dispensing of opioid analgesics are in conflict with state insurance laws or
29 state laws governing the practice of medicine and pharmacy; and (2) oppose specific
30 dose or duration limits on pharmacologic therapy that are not supported by medical
31 evidence and clinical practice.

32 BOT Rep. 17, A-18

33
34 Prevention of Opioid Overdose D-95.987

35 1. Our AMA: (A) recognizes the great burden that opioid addiction and prescription
36 drug abuse places on patients and society alike and reaffirms its support for the
37 compassionate treatment of such patients; (B) urges that community-based programs
38 offering naloxone and other opioid overdose prevention services continue to be
39 implemented in order to further develop best practices in this area; and (C) encourages
40 the education of health care workers and opioid users about the use of naloxone in
41 preventing opioid overdose fatalities; and (D) will continue to monitor the progress of
42 such initiatives and respond as appropriate. 2. Our AMA will: (A) advocate for the
43 appropriate education of at-risk patients and their caregivers in the signs and
44 symptoms of opioid overdose; and (B) encourage the continued study and
45 implementation of appropriate treatments and risk mitigation methods for patients at
46 risk for opioid overdose. 3. Our AMA will support the development and implementation
47 of appropriate education programs for persons in recovery from opioid addiction and
48 their friends/families that address how a return to opioid use after a period of
49 abstinence can, due to reduced opioid tolerance, result in overdose and death. (Res.
50 526, A-06 Modified in lieu of Res. 503, A-12 Appended: Res. 909, I-12 Reaffirmed:
51 BOT Rep. 22, A-16 Modified: Res. 511, A-18)

1
2 Promotion of Better Pain Care D-160.981

3 1. Our AMA: (a) will express its strong commitment to better access and delivery of
4 quality pain care through the promotion of enhanced research, education and clinical
5 practice in the field of pain medicine; and (b) encourages relevant specialties to
6 collaborate in studying the following: (i) the scope of practice and body of knowledge
7 encompassed by the field of pain medicine; (ii) the adequacy of undergraduate,
8 graduate and post graduate education in the principles and practice of the field of pain
9 medicine, considering the current and anticipated medical need for the delivery of
10 quality pain care; (iii) appropriate training and credentialing criteria for this
11 multidisciplinary field of medical practice; and (iv) convening a meeting of interested
12 parties to review all pertinent matters scientific and socioeconomic. 2. Our AMA
13 encourages relevant stakeholders to research the overall effects of opioid production
14 cuts. 3. Our AMA strongly urges the US Drug Enforcement Administration to base any
15 future reductions in aggregate production quotas for opioids on actual data from
16 multiple sources, including prescribing data, and to proactively monitor opioid quotas
17 and supply to prevent any shortages that might develop and to take immediate action
18 to correct any shortages. 4. Our AMA encourages the US Drug Enforcement
19 Administration to be more transparent when developing medication production
20 guidelines. 5. Our AMA and the physician community reaffirm their commitment to
21 delivering compassionate and ethical pain management, promoting safe opioid
22 prescribing, reducing opioid-related harm and the diversion of controlled substances,
23 improving access to treatment for substance use disorders, and fostering a public
24 health based-approach to addressing opioid-related morbidity and mortality. (Res.
25 321, A-08 Appended: Res. 522, A-10 Reaffirmed in lieu of Res. 518, A-12 Reaffirmed:
26 BOT Rep. 19, A-16 Reaffirmed in lieu of Res. 117, A-16 Appended: Res. 927, I-16
27 Appended: Res. 526, A-17 Modified: BOT Action in response to referred for decision
28 Res. 927, I-16)

29
30 Guidelines for Due Process H-265.998

31 While it is not possible to develop universal guidelines for due process, voluntary
32 utilization of the following general guidelines for due process, adapted in each instance
33 to suit the circumstances and conditions of the health care organization and within the
34 requirements of the applicable laws of the jurisdiction, should assist in providing the
35 type of hearing which the law in each jurisdiction requires: (1) The physician should
36 be provided with a statement, or a specific listing, of the charges made against him or
37 her. (2) The physician is entitled to adequate notice of the right to a hearing and a
38 reasonable opportunity of no less than 30 days to prepare for the hearing. (3) It is the
39 duty and responsibility of the hearing officer to conduct a fair, objective, expeditious
40 and independent hearing pursuant to established rules. (4) The rules of procedure
41 should clearly define the extent to which attorneys may participate in the hearing. (5)
42 The physician against whom the charges are made should have the opportunity to be
43 present at the hearing and hear all of the evidence against him or her. (6) The
44 physician is entitled to the opportunity to present a defense to the charges against him
45 or her. (7) To the extent feasible, the hearing panel should evaluate the issues and
46 evidence presented related to the proposed corrective action while blinded to the
47 patient outcome. (8) The hearing panel should render a decision based on the
48 evidence produced at the hearing. (9) The hearing panel should include in its decision
49 the conclusions reached and actions recommended and, as an important focus if
50 feasible, remedial steps for the physician and for the health care facility itself. When
51 feasible, the hearing panel should include terms that permit measurement and

1 validation of the completed remediation process. (10) The hearing panel should
2 endeavor to state its findings, the clinical basis and support for its findings, its
3 recommendations, and actions as clearly as possible. (11) Within 10 days of the
4 receipt of the hearing panel's decision, the physician, medical executive committee or
5 health care organization, if it brought the correction action, has the right to request an
6 appellate review. The written request for an appellate review shall include an
7 identification of the grounds for appeal and a clear and concise statement of the facts
8 and/or evidence in support of the appeal. The grounds for an appeal of the decision
9 shall be: (a) substantial non-compliance with the procedures required in the medical
10 staff bylaws; or (b) the decision is against the manifest weight of the evidence. If an
11 appellate review is to be conducted, the appeal board shall schedule the appellate
12 review and provide notice to the physician, medical executive committee and the
13 health care organization. The MEC shall appoint an appeal board consisting of
14 members of the medical staff who did not sit on the original hearing panel, or, at the
15 request of the MEC, the governing body or at least three members thereof may sit as
16 the appeal board. The appeal board shall consider the record of the hearing before
17 the hearing panel. If the appeal board determines that significant relevant evidence,
18 which could bear on the outcome of the proceeding, was not entertained by the hearing
19 panel, it may refer the matter back to the hearing panel for further deliberation or, at
20 the appeal board's discretion, it may receive and consider the new evidence. Similarly,
21 if the appeals board determines that there was not substantial compliance with the
22 hearing procedures in the medical staff bylaws, the appeal board may refer the matter
23 back to the hearing body or, at the appeal board's discretion, it may convene additional
24 hearings to correct any defect in the process. Upon completion of the appeal board's
25 deliberations, the appeal board shall present its recommendation(s) to the governing
26 body as to whether the recommendations(s) of the hearing body should be affirmed,
27 modified, or reversed. (12) In any hearing, the interest of patients and the public must
28 be protected. (BOT Rep. II, A-80 Reaffirmed: Sunset Report, I-98 Amended: BOT
29 Action in response to referred for decision BOT Rep. 23, A-05 Reaffirmed: Res. 12, A-
30 06 Reaffirmed: BOT Rep. 06, A-16)

31
32 Medical Staff Membership H-220.951

33 Our AMA (1) requests The Joint Commission to require that conditions for hospital
34 medical staff membership be based only on the physician's professional training,
35 experience, qualifications, and adherence to medical staff bylaws; and (2) will work
36 toward protecting the due process rights of physicians when medical staff privileges
37 are terminated without appropriate due process as described by the medical staff
38 bylaws. (Res. 721, I-91 Reaffirmed by Res. 802, I-94 Reaffirmed: CLRPD 1, A-04
39 Reaffirmation A-05 Modified: CMS Rep. 1, A-15)

40
41 (21) RESOLUTION 202 – ENABLING METHADONE TREATMENT
42 OF OPIOID USE DISORDER IN PRIMARY CARE SETTINGS

43
44 RECOMMENDATION:

45
46 Madam Speaker, your Reference Committee recommends that
47 Resolution 202 be referred.

48
49 **HOD ACTION: Resolution 202 referred.**

1 Resolution 202 asks that our American Medical Association study the implications of removing
2 those administrative and/or legal barriers that hamper the ability of primary care physician
3 practices to dispense methadone, as part of medication assisted treatment (Directive to Take
4 Action); and be it further, that our AMA study the implications of working with other Federation
5 stakeholders to identify the appropriate educational tools that would support primary care
6 practices in dispensing ongoing methadone for appropriate patients as part of medication-
7 assisted treatment. (Directive to Take Action)
8

9 Your Reference Committee heard supportive testimony on Resolution 202. Your Reference
10 Committee heard testimony that our AMA should study the implications of removing barriers
11 that hamper the ability of physician practices to dispense methadone. Your Reference
12 Committee also heard testimony that our AMA does not need to study working with the state
13 and specialty societies regarding these issues but instead should work directly with the
14 Federation members on enabling methadone treatment. However, your Reference Committee
15 also heard that no appropriate educational tools that would support primary care practices in
16 dispensing ongoing methadone exist at this moment and that this also needs study. Your
17 Reference Committee heard testimony on the need for the physician community to continue
18 reducing the stigma associated with methadone use and medication assisted treatment. Of
19 note, your Reference Committee heard concerns about providing access to methadone to
20 primary care physicians without sufficient training, and only for the singular indication of opioid
21 use disorder. Given the nature of the testimony, your Reference Committee recommends
22 referral.
23

24 (22) RESOLUTION 204 – RESTRICTION ON IMG
25 MOONLIGHTING
26

27 RECOMMENDATION:
28

29 Madam Speaker, your Reference Committee recommends that
30 Resolution 204 be referred.
31

32 **HOD ACTION: Resolution 204 referred.**
33

34 Resolution 204 asks that our American Medical Association advocate for changes to federal
35 legislation allowing physicians with a J-1 visa in fellowship training programs the ability to
36 moonlight. (New HOD Policy)
37

38 Your Reference Committee heard supportive but mixed testimony on Resolution 204. Your
39 Reference Committee heard testimony that our AMA has strong policy regarding limiting duty
40 hours for residents/fellows. Your Reference Committee heard testimony that International
41 Medical Graduates moonlighting will improve access to care for underserved populations in
42 certain areas around the U.S. facing a physician shortage. Your Reference Committee also
43 heard testimony that J-1 visa classifications are explicitly reserved for educational and cultural
44 exchange. Further testimony indicated that J-1 visa classifications are not a work visa and,
45 therefore, J-1 physician participants are not permitted to engage in any work outside of their
46 approved program of graduate medical education. Your Reference Committee also heard
47 testimony that more research needs to be done on the impact of a potential shift of AMA Policy
48 including policies related to patient safety, fatigue/stress on the fellow, professional licensing,
49 payment, and liability. As a result, your Reference Committee believes that Resolution 204
50 should be referred.

1 (23) RESOLUTION 206 – REPEALING POTENTIAL PENALTIES
2 ASSOCIATED WITH MIPS
3 RESOLUTION 231 – REDUCING THE REGULATORY
4 BURDEN IN HEALTH CARE
5

6 RECOMMENDATION:
7

8 Madam Speaker, your Reference Committee recommends that
9 Resolutions 206 and 231 be referred.

10
11 **HOD ACTION: Resolutions 206 and 231 referred.**
12

13 Resolution 206 asks that our American Medical Association advocate to repeal all potential
14 penalties associated with the MIPS program. (Directive to Take Action) Resolution 231 asks
15 that our American Medical Association work to support the repeal of the Merit-Based Incentive
16 Payment System (MIPS) (Directive to Take Action); and be it further, that upon repeal of MIPS,
17 our AMA oppose any federal efforts to implement any pay-for-performance programs unless
18 such programs add no significant regulatory or paperwork burdens to the practice of medicine
19 and have been shown, by evidence-based research, to improve the quality of care for those
20 served. (Directive to Take Action)
21

22 Your Reference Committee heard mixed testimony on Resolutions 206 and 231. Your
23 Reference Committee heard testimony that a similar resolution was debated in June at our
24 Annual Meeting, and that the House of Delegates voted against adoption. Your Reference
25 Committee heard testimony that Congress passed the Bipartisan Budget Act of 2018 and
26 included five key MACRA improvements supported by our AMA. These improvements will
27 allow CMS and physicians three additional years to gradually transition into the MIPS
28 program. Your Reference Committee also heard testimony that our AMA continues to work
29 closely with CMS to recommend a variety of improvements to the MIPS program including
30 simplified scoring methodology, reduced reporting burden, and the ability for physicians to
31 report data across multiple performance categories. Your Reference Committee heard further
32 testimony that the cost of repealing MIPS penalties would need to be offset and would
33 potentially come at the expense of bonuses or across the board cuts in physician payments;
34 and that would impact even the physicians who are currently exempt from MIPS, such as
35 small practices. Testimony also indicated that the second Resolve in Resolution 231 would
36 effectively disallow our AMA to continue its support for the Administration's and Congress'
37 efforts to advance successful, innovative payment models as well as the technologies needed
38 to support the models. Your Reference Committee also heard testimony that our AMA should
39 continue to work to simplify and improve the MIPS program, and work with state and specialty
40 societies to help develop more opportunities for physicians to participate in Alternative
41 Payment Models, which would allow them to be exempt from the MIPS program. Your
42 Reference Committee has concerns that repealing penalties associated with MIPS or
43 repealing the entire program could result in an alternative program that may be less desirable.
44 Your Reference Committee understands the continued efforts made by our AMA and
45 specialties to improve MIPS; however, given the Board of Trustees interest in evaluating this
46 issue further, your Reference Committee recommend that Resolutions 206 and 231 be
47 referred.

1 (24) RESOLUTION 210 – FORCED ORGAN HARVESTING FOR
2 TRANSPLANTATION

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends that
7 Resolution 210 be referred for decision.

8
9 **HOD ACTION: Resolution 210 referred for decision.**

10
11 Resolution 210 asks that our American Medical Association reaffirm Ethical Opinion E-6.1.1,
12 “Transplantation of Organs from Living Donors,” and believes that transplant surgeons,
13 especially those who come to the United States for training in transplant surgery, must agree
14 to these guidelines, and that American medical and hospital institutions not be complicit in
15 any ethical violations or conflicts of interest (New HOD Policy); and be it further, that our AMA
16 representatives to the World Medical Association request an independent, interdisciplinary
17 (not restricted to transplant surgeons), transparent investigation into the Chinese practices of
18 organ transplantation including (but not limited to): the source of the organs as well as the
19 guidelines followed; and to report back on these issues as well as the status of Prisoners of
20 Conscience as sources of transplantable organs (Directive to Take Action); and be it further
21 that our AMA call upon the U.S. Government to protect the large number of transplant tourists
22 by implementing legislation to regulate the evolving, ethical challenges by initiating a
23 Reciprocal Transplant Transparency Act which would blacklist countries that do not meet the
24 same transparency and ethical standards practiced in the U.S. (such as the public listing of
25 annual transplant numbers by every transplant center to permit scrutiny). (Directive to Take
26 Action)

27
28 Your Reference Committee heard mixed testimony on Resolution 210. Testimony was
29 presented by the sponsor and supporters of the resolution that according to the Executive
30 Director and founder of Doctors Against Forced Organ Harvesting, a medical non-
31 governmental organization, there are substantiated allegations of “state-sponsored domestic
32 organ trafficking and harvesting” in China from executed prisoners, and from prisoners of
33 conscience, including Uighurs, House Christians, Tibetans and Falun Gong practitioners.
34 There was further testimony that although the Chinese Medical Association has stated that
35 the practice of harvesting organs from the deceased prisoners was outlawed as of January 1,
36 2015, and that organ tourism is prohibited by Chinese law, there have been reports of dramatic
37 increases in transplant tourism and evidence suggesting that the supply of organs in China
38 could not realistically come from legitimate organ donation programs. Your Reference
39 Committee also heard that transplant tourism has become a lucrative source of income in
40 China, leading to a rapid expansion of the transplant infrastructure in China, and China has
41 declared the Hainan Islands to be a special economic zone for medical tourism.

42
43 Testimony was also presented that ethical guidelines for transplantation are set forth by our
44 AMA, the World Medical Association (WMA), and the World Health Organization, and the U.S.
45 Congress passed House Resolution 343 in 2016, calling for an end to forced organ harvesting
46 from Falun Gong prisoners of conscience in China; that a Resolution was introduced in the
47 U.S. Senate in 2017; and the European Parliament also passed Written Declaration 48 in
48 2016, calling for investigations and an end to forced organ harvesting from Falun Gong
49 prisoners of conscience in China.

1 Testimony was presented that the first Resolve clause of Resolution 210 is problematic and
2 should not be adopted because technically, opinions in the Code of Medical Ethics, such as
3 E-6.1.1, are not reaffirmed—they are AMA ethics policy in perpetuity until or unless CEJA
4 proposes a revision at its own initiative or in response to a request from the HOD or the Board.
5 Testimony was further presented that the ask in the second Resolve clause, for the WMA to
6 conduct an investigation, is not within the scope of WMA's activity. While the WMA can
7 conduct, and has conducted, fact-finding missions, the organization does not engage in
8 investigations of member nations. Your Reference Committee also heard testimony that third
9 Resolved clause is also problematic because it would require our AMA to call upon the federal
10 government to initiate a treaty process to regulate the evolving, ethical challenges of
11 transplant tourism. Your Reference Committee heard testimony that this is beyond our AMA's
12 resources, and it is generally our AMA's practice to work through the WMA on international
13 issues such as those raised in Resolution 210.

14
15 Accordingly, given the complicated and serious issue of forced organ harvesting and the
16 concerns raised by the Resolve clauses of Resolution 210, your Reference Committee
17 recommends that Resolution 210 be referred for decision.

18
19 (25) RESOLUTION 215 – EXTENDING THE MEDICAL HOME TO
20 MEET FAMILIES WHEREVER THEY GO

21
22 RECOMMENDATION:

23
24 Madam Speaker, your Reference Committee recommends that
25 Resolution 215 not be adopted.

26
27 **HOD ACTION: Resolution 215 referred.**

28
29 Resolution 215 asks that our American Medical Association develop model legislation to
30 permit primary care physicians, who work in medical homes/primary care practices that satisfy
31 the National Committee for Quality Assurance (NCQA) Patient-Centered Medical Home
32 Recognition Program guidelines, and who have documented a face-to-face patient-care
33 relationship, to provide telehealth services for the patient when the patient travels to any of
34 the fifty states. (Directive to Take Action)

35
36 Your Reference Committee heard mixed testimony on Resolution 215. Your Reference
37 Committee also heard testimony that our AMA has strongly advocated to protect the long-
38 standing position of licensure being state based including that state laws where the patient is
39 located should apply including licensure, medical practice, and liability laws. Your Reference
40 Committee heard additional testimony that state-based exceptions and carve outs will further
41 complicate oversight and regulation, patient protections, and spawn challenging conflicts of
42 laws problems. Furthermore, your Reference Committee heard testimony that our AMA
43 already has strong policy promoting quality telemedicine. Accordingly, your Reference
44 Committee recommends that Resolution 215 not be adopted.

1 (26) RESOLUTION 230 – NONPROFIT HOSPITALS AND
2 NETWORK HEALTH SYSTEMS

3
4 RECOMMENDATION:

5
6 Madam Speaker, your Reference Committee recommends that
7 Resolution 230 not be adopted.

8
9 **HOD ACTION: Resolution 230 not adopted.**

10
11 Resolution 230 asks that our American Medical Association lobby federal legislators, the
12 Internal Revenue Service, and/or other appropriate federal officials to investigate and review
13 whether non-profit hospitals and other applicable health systems are meeting the provisions
14 of Internal Revenue Code relating to their tax-exempt status when they restrict or otherwise
15 limit medical staff privileges or maintain closed medical staffs, and take appropriate action to
16 ensure that non-profit hospitals and other applicable health systems continue to meet
17 charitable purposes as required under applicable sections of the Internal Revenue Code.
18 (Directive to Take Action)

19
20 Your Reference Committee heard mixed testimony on Resolution 230. Your Reference
21 Committee heard testimony that the Internal Revenue Service does not strictly say that limiting
22 or closing a medical staff will cost a hospital its 501(c)(3) status and that this policy is long-
23 standing. Your Reference Committee heard testimony that an effort to change this would likely
24 be strenuously opposed by the hospital industry. Your Reference Committee heard testimony
25 that existing AMA policy does not support this resolution—our AMA policy does not say that
26 hospitals cannot close or limit their medical staffs or enter into exclusive contracts with select
27 physicians; it says that the medical staff should be consulted before such actions are taken
28 and that physicians who are not included on the medical staff need to be given due process
29 before being excluded in support of referral. Accordingly, your Reference Committee
30 recommends that Resolution 230 be not adopted.

31
32 (27) RESOLUTION 234 – NEGLIGENT CREDENTIALING
33 ACTIONS AGAINST HOSPITALS

34
35 RECOMMENDATION:

36
37 Madam Speaker, your Reference Committee recommends that
38 Resolution 234 not be adopted.

39
40 **HOD ACTION: Resolution 234 referred for decision.**

41
42 Resolution 234 asks that our American Medical Association recognize that “negligent
43 credentialing” lawsuits undermine the overall integrity of the credentialing process, potentially
44 resulting in adverse impacts to patient access and quality of care (New HOD Policy); and be
45 it further, that our AMA actively oppose state legislation and court action recognizing
46 “negligent credentialing” as a cause of action that would allow for patients to sue a hospital
47 and medical staff (Directive to Take Action); and be it further, that our AMA work with state
48 medical societies and medical specialty associations in those states that recognize the tort of
49 negligent credentialing to advocate that such claims should place the highest standard of proof
50 on the plaintiff. (Direct to Take Action)

1 Your Reference Committee heard mixed testimony on Resolution 234. Your Reference
2 Committee heard testimony that patients are already protected under various medical liability
3 or medical malpractice laws and that the threat of liability for negligent credentialing may result
4 in hospitals and health plans adopting more stringent criteria to credential licensed physicians.
5 Your Reference Committee also heard testimony that negligent credentialing is an action that
6 is taken against a hospital and not a physician. Testimony further indicated that our AMA
7 should focus our resources on protecting physicians from liability. Your Reference Committee
8 also heard testimony that removing the hospital from a liability action could be at the expense
9 of the physician and leave the physician with having greater liability. Your Reference
10 Committee heard further testimony that asking our AMA to argue for the highest standard of
11 proof (which is reasonable doubt) for a negligence case weakens AMA's advocacy efforts
12 because proof beyond reasonable doubt is only meant for criminal cases. Accordingly, your
13 Reference Committee recommends that Resolution 234 not be adopted.

14
15 (28) RESOLUTION 218 – ALTERNATIVES TO TORT FOR
16 MEDICAL LIABILITY

17
18 RECOMMENDATION:

19
20 Madam Speaker, your Reference Committee recommends that
21 Policies H-435.943, H-435.978, H-435.993, D-435.974, and D-
22 435.992 be reaffirmed in lieu of Resolution 218.

23
24 **HOD ACTION: Policies H-435.943, H-435.978, H-435.993, D-**
25 **435.974, and D-435.992 reaffirmed in lieu of Resolution 218.**

26
27 That our American Medical Association study and/or develop options for alternatives to the
28 tort system that will: assure fair compensation to individuals harmed as a result of systems or
29 clinician error in the process of receiving medical care and separately; identify and hold
30 accountable physicians, other practitioners and health care delivery systems for questionable
31 practice through professional review and quality management as well as identify opportunities
32 for improving systems to maximize the safety of medical care (as in New Zealand and other
33 countries or the Candor strategy). (Directive to Take Action)

34
35 Your Reference Committee heard mixed testimony on Resolution 218. Your Reference
36 Committee heard testimony that our AMA remains on the forefront on the medical liability
37 issue by advocating at both the federal and state levels and conducting research to improve
38 the liability system. Our AMA remains committed to advocate for proven reforms—such as
39 caps on non-economic damages—to resolve this problem. Your Reference Committee also
40 heard testimony that based on existing AMA policy our AMA will continue advocating for
41 innovative reforms, such as health courts and early disclosure models, to complement
42 traditional reforms. Your Reference Committee also heard testimony that a fair or no-fault
43 compensation system as proposed in Resolution 218 runs contrary to AMA policy by lowering
44 the standard of proof required for a judgment against a physician, lacks requirements that
45 medical experts have the same or similar expertise as the defendant, and could increase
46 National Practitioner Databank Reporting. Accordingly, given the strong AMA policy on
47 medical liability, your Reference Committee recommends reaffirming policy in lieu of
48 Resolution 218.

49
50 AMA Support for State Medical Societies' Efforts to Implement MICRA-Type
51 Legislation H-435.943

1 Our AMA supports state medical associations in their opposition to proposals to
2 replace a state medical liability system with a no-fault liability or Patient Compensation
3 System, unless those proposals are consistent with AMA policy. (BOT Rep. 02, I-16)
4

5 Federal Medical Liability Reform H-435.978

6 Our AMA: (1) supports federal legislative initiatives implementing the following medical
7 liability reforms: (a) limitation of \$250,000 or lower on recovery of non-economic
8 damages; (b) the mandatory offset of collateral sources of plaintiff compensation; (c)
9 decreasing sliding scale regulation of attorney contingency fees; and (d) periodic
10 payment for future awards of damages; (2) reaffirms its support for the additional
11 reforms identified in Report L (A-89) as appropriate for a federal reform vehicle. These
12 are: (a) a certificate of merit requirement as a prelude to filing medical liability cases;
13 and (b) basic medical expert witness criteria; (3) supports for any federal initiative
14 incorporating provisions of this type would be expressly conditional. Under no
15 circumstances would support for federal preemptive legislation be extended or
16 maintained if it would undermine effective tort reform provisions already in place in the
17 states or the ability of the states in the future to enact tort reform tailored to local needs.
18 Federal preemptive legislation that endangers state-based reform will be actively
19 opposed. Federal initiatives incorporating extended or ill-advised regulation of the
20 practice of medicine also will not be supported. Effective medical liability reform, based
21 on the California Medical Injury Compensation Reform Act (MICRA) model, is integral
22 to health system reform. (BOT Rep. S, I-89, BOT Rep. I-93-53, Reaffirmed: BOT Rep.
23 8, I-98, Reaffirmation A-00, Reaffirmation I-03, Reaffirmed: Sub. Res. 910, I-03,
24 Reaffirmed: Res. 206, I-09, Reaffirmation A-10, Reaffirmed: Sub. Res. 222, I-10,
25 Reaffirmed: Res. 206, A-11, Reaffirmed in lieu of Res. 205, I-11, Reaffirmed in lieu of
26 first resolve of Res. 214, I-15)

27 Tort Liability Reform H-435.993

28 Our AMA: (1) supports the efforts of state medical societies to form coalitions
29 supporting tort reform in each state and representing the numerous interests adversely
30 affected by present escalating tort liability costs; and (2) believes these coalitions
31 should address such issues as reform of laws governing product and professional
32 liability, and development of appropriate public education programs regarding the
33 impact and cost to consumers of present liability laws. (Sub. Res. 6, A-84, Reaffirmed
34 by CLRPD Rep. 3 - I-94, Reaffirmation A-00, Reaffirmation I-08, Reaffirmed: BOT Rep.
35 09, A-18)
36

37 Health System and Litigation Reform D-435.974

38 Our AMA will: (1) press vigorously and creatively for inclusion of effective medical
39 litigation reforms as part of the comprehensive federal health system/insurance reform
40 debate now underway in Washington, DC; and (2) consider and, as necessary,
41 negotiate with federal policymakers on a wide range of litigation reform policy options
42 to gain inclusion of a remedy in the health system reform package. These options
43 might include traditional tort reforms, recovery limitations similar to those of the
44 Veterans Administration (VA) system, demonstration/pilot programs on alternate
45 dispute resolution systems such as the VA model and health courts, and/or other
46 effective options to preserve patient access to care. (Res. 209, A-09, Reaffirmed: Sub.
47 Res. 222, I-10)
48

49 Liability Reform D-435.992

50 Our AMA: (1) in concert with a coalition for civil liability reform, shall develop a broad-
51 based and sustained grassroots member mobilization campaign to communicate its

1 call for immediate legislative relief from the current tort system to our congressional
2 representatives and senators; (2) will work for passage of significant legislation in both
3 houses of the US Congress on liability reform in this congressional year; and (3) will
4 work with state and national medical specialty societies to develop and implement a
5 comprehensive strategic plan that will address all aspects of the growing medical
6 liability crisis to ensure that federal medical liability reform legislation continues to
7 move forward through the legislative process. (Sub. Res. 215, A-02, Reaffirmation I-
8 03, Appended: Sub. Res. 910, I-03, Modified: BOT Rep. 28, A-13)

9
10 (29) RESOLUTION 225 – “SURPRISE” OUT OF NETWORK BILLS

11
12 RECOMMENDATION:

13
14 Madam Speaker, your Reference Committee recommends that
15 Policy H-285.904 be reaffirmed in lieu of Resolution 225.

16
17 **HOD ACTION: Policy H-285.904 reaffirmed in lieu of**
18 **Resolution 225.**

19
20 Resolution 225 asks that our American Medical Association advocate that any federal
21 legislation on “surprise” out of network medical bills be consistent with AMA Policy H-285.904,
22 “Out-of-Network Care,” and apply to ERISA plans not subject to state regulation (New HOD
23 Policy); and be it further, that our AMA advocate that such federal legislation protect state
24 laws that do not limit surprise out of network medical bills to a percentage of Medicare or
25 health insurance fee schedules. (New HOD Policy)

26
27 Your Reference Committee heard testimony that our AMA is committed to developing patient-
28 centered solutions to unanticipated out-of-network care and addressing the financial burden
29 patients may face when they incur unexpected expenses for care not covered by their health
30 insurance company. Your Reference Committee heard that concepts addressed in Resolution
31 225 already addressed in existing out-of-network policy H-285-904, which was recently
32 adopted after substantial conversation with state and specialty societies. Testimony also
33 stated that this policy clearly outlines both a fair payment standard and requires that advocacy
34 around our out-of-network policy should be directed at all health plans, including ERISA-
35 regulated plans.

36
37 Your Reference Committee heard testimony for and against the addition of a recommendation
38 that our AMA develop model federal legislation consistent with existing policy relative to this
39 subject. Testimony for adoption suggested that our AMA develop model federal legislation
40 consistent with existing policy. Testimony against adding this language raised concerns that
41 drafting a federal model bill could limit our AMA’s and other physician groups’ flexibility to work
42 with Congress to craft a workable solution. Your Reference Committee heard that if our AMA
43 drafted a federal bill, and then Congress uses different language or a different statutory
44 pathway than what our AMA proposed, our AMA would potentially be in a position of having
45 to oppose or not support the bill that would otherwise achieve the same result, while other
46 physician groups and other stakeholders would not be under the same constraint. Your
47 Reference Committee agrees with these concerns, and notes that our current AMA Policy H-
48 285.904 was just amended at our 2018 Annual Meeting with language that is very clear—our
49 AMA will advocate for Policy H-285.904 “for all health plans, including ERISA plans.” Your
50 Reference Committee heard testimony that this means our AMA will continue to advocate for
51 federal legislation, whether it is achieved through the Public Health Service Act, the Social

1 Security Act, the Internal Revenue Code, ERISA, or other federal statutes, as long as it meets
2 the criteria of our policy. Furthermore, your Reference Committee heard testimony that our
3 AMA is currently engaged in discussions with Members of Congress who are attempting to
4 draft a federal solution to balance billing. These discussions include working with other
5 physician groups, and that these physician groups have all been largely aligned around
6 current AMA policy as the basis for negotiations. Your Reference Committee agrees with the
7 concerns raised that altering course now could impact not just our AMA's progress, but that
8 of other physician groups engaged in this advocacy activity. Accordingly, your Reference
9 Committee recommends that Policy H-285.904 be reaffirmed in lieu of Resolution 225.

10
11 Out-of-Network Care H-285.904

12 1. Our AMA adopts the following principles related to unanticipated out-of-network
13 care: A. Patients must not be financially penalized for receiving unanticipated care
14 from an out-of-network provider. B. Insurers must meet appropriate network adequacy
15 standards that include adequate patient access to care, including access to hospital-
16 based physician specialties. State regulators should enforce such standards through
17 active regulation of health insurance company plans. C. Insurers must be transparent
18 and proactive in informing enrollees about all deductibles, copayments and other out-
19 of-pocket costs that enrollees may incur. D. Prior to scheduled procedures, insurers
20 must provide enrollees with reasonable and timely access to in-network physicians. E.
21 Patients who are seeking emergency care should be protected under the "prudent
22 layperson" legal standard as established in state and federal law, without regard to
23 prior authorization or retrospective denial for services after emergency care is
24 rendered. F. Out-of-network payments must not be based on a contrived percentage
25 of the Medicare rate or rates determined by the insurance company. G. Minimum
26 coverage standards for unanticipated out-of-network services should be identified.
27 Minimum coverage standards should pay out-of-network providers at the usual and
28 customary out-of-network charges for services, with the definition of usual and
29 customary based upon a percentile of all out-of-network charges for the particular
30 health care service performed by a provider in the same or similar specialty and
31 provided in the same geographical area as reported by a benchmarking database.
32 Such a benchmarking database must be independently recognized and verifiable,
33 completely transparent, independent of the control of either payers or providers and
34 maintained by a non-profit organization. The non-profit organization shall not be
35 affiliated with an insurer, a municipal cooperative health benefit plan or health
36 management organization. H. Mediation should be permitted in those instances where
37 a physicians unique background or skills (e.g. the Gould Criteria) are not accounted
38 for within a minimum coverage standard. 2. Our AMA will advocate for the principles
39 delineated in Policy H-285.904 for all health plans, including ERISA plans. (Res. 108,
40 A-17; Reaffirmation: A-18; Appended: Res. 104, A-18)

41
42 (30) RESOLUTION 228 – MEDICATION ASSISTED TREATMENT

43
44 RECOMMENDATION:

45
46 Madam Speaker, your Reference Committee recommends that
47 Policies H-185.931, H-95.944, and D-160.981 be reaffirmed in
48 lieu of Resolution 228.

49
50 **HOD ACTION: Policies H-185.931, H-95.944, and D-160.981**
51 **reaffirmed in lieu of Resolution 228.**

1 Resolution 228 asks that our American Medical Association advocate for all insurance plans
2 (public and private payers) to provide coverage for medication assisted treatment of opioid
3 use disorder by all qualified physicians. (New HOD Policy)

4
5 Your Reference Committee heard mixed testimony on Resolution 228. Your Reference
6 Committee heard testimony that all insurance plans should provide coverage for medication
7 assisted treatment (MAT) of opioid use disorder. Testimony also indicated that our AMA
8 already has existing policy that our AMA advocate for all payers to provide coverage for MAT.
9 Further testimony stated that our AMA is also already advocating for all forms of MAT to be
10 on the lowest cost-sharing tier of a plan formulary and also to remove prior authorization and
11 other health plan barriers to MAT. Accordingly, your Reference Committee recommends
12 reaffirming Policies H-185.931, H-95.944, and D-160.981.

13
14 Workforce and Coverage for Pain Management H-185.931

15 1. Our AMA supports efforts to improve the quality of care for patients with pain,
16 ensuring access to multiple analgesic strategies, including non-opioid options and
17 interventional approaches when appropriate, with a focus on achieving improvement
18 in function and activities of daily living. 2. Our AMA supports guidance on pain
19 management for different clinical indications developed by the specialties who manage
20 those conditions and disseminated the same way other clinical guidelines are
21 promoted, such as through medical journals, medical societies, and other appropriate
22 outlets. 3. Our AMA will advocate for an increased focus on comprehensive,
23 multidisciplinary pain management approaches that include the ability to assess co-
24 occurring mental health or substance use conditions, are physician led, and recognize
25 the interdependency of treatment methods in addressing chronic pain. 4. Our AMA
26 supports health insurance coverage that gives patients access to the full range of
27 evidence-based chronic pain management modalities, and that coverage for these
28 services be equivalent to coverage provided for medical or surgical benefits. 5. Our
29 AMA supports efforts to expand the capacity of practitioners and programs capable of
30 providing physician-led interdisciplinary pain management services, as well as an
31 expanded behavioral health workforce to improve the availability of services to
32 address the psychological, behavioral, and social aspects of pain and pain
33 management within multidisciplinary pain clinics. Patients and their caregivers should
34 be involved in the decision-making process. 6. Our AMA supports an expanded
35 availability of comprehensive multidisciplinary pain medicine clinics for patients in both
36 urban and rural areas, and an improvement in payment models for comprehensive
37 multidisciplinary pain clinics services such that such services can become more
38 financially viable. (CMS/CSAPH Rep. 1, A-15 Reaffirmed: BOT Rep. 5, I-15
39 Reaffirmed: BOT Rep. 19, A-16 Reaffirmed in lieu of Res. 117, A-16 Modified: BOT
40 Rep. 38, A-18)

41
42 Third-Party Payer Policies on Opioid Use Disorder Pharmacotherapy H-95.944

43 Our AMA opposes federal, state, third-party and other laws, policies, rules and
44 procedures, including those imposed by Pharmacy Benefit Managers working for
45 Medicaid, Medicare, TriCare, and commercial health plans, that would limit a patient's
46 access to medically necessary pharmacological therapies for opioid use disorder,
47 whether administered in an office-based opioid treatment setting or in a federal
48 regulated Opioid Treatment Program, by imposing limitations on the duration of
49 treatment, medication dosage or level of care. (Res. 710, A-13)

50
51 Promotion of Better Pain Care D-160.981

1 1. Our AMA: (a) will express its strong commitment to better access and delivery of
2 quality pain care through the promotion of enhanced research, education and clinical
3 practice in the field of pain medicine; and (b) encourages relevant specialties to
4 collaborate in studying the following: (i) the scope of practice and body of knowledge
5 encompassed by the field of pain medicine; (ii) the adequacy of undergraduate,
6 graduate and post graduate education in the principles and practice of the field of pain
7 medicine, considering the current and anticipated medical need for the delivery of
8 quality pain care; (iii) appropriate training and credentialing criteria for this
9 multidisciplinary field of medical practice; and (iv) convening a meeting of interested
10 parties to review all pertinent matters scientific and socioeconomic. 2. Our AMA
11 encourages relevant stakeholders to research the overall effects of opioid production
12 cuts. 3. Our AMA strongly urges the US Drug Enforcement Administration to base any
13 future reductions in aggregate production quotas for opioids on actual data from
14 multiple sources, including prescribing data, and to proactively monitor opioid quotas
15 and supply to prevent any shortages that might develop and to take immediate action
16 to correct any shortages. 4. Our AMA encourages the US Drug Enforcement
17 Administration to be more transparent when developing medication production
18 guidelines. 5. Our AMA and the physician community reaffirm their commitment to
19 delivering compassionate and ethical pain management, promoting safe opioid
20 prescribing, reducing opioid-related harm and the diversion of controlled substances,
21 improving access to treatment for substance use disorders, and fostering a public
22 health based-approach to addressing opioid-related morbidity and mortality. (Res.
23 321, A-08 Appended: Res. 522, A-10 Reaffirmed in lieu of Res. 518, A-12 Reaffirmed:
24 BOT Rep. 19, A-16 Reaffirmed in lieu of Res. 117, A-16)

- 1 Madam Speaker, this concludes the report of Reference Committee B. I would like to thank
- 2 Sue Bornstein, MD, Tilden Childs, MD, Daniel P. Edney, MD, Ross F. Goldberg, MD,
- 3 Raymond Lorenzoni, MD, Bruce A. MacLeod, MD, and all those who testified before the
- 4 Committee.
