Medical Association of Georgia,
Board of Directors,
Officers,
Delegates and Alternate Delegates,
Georgia county, District, and Specialty Medical Societies,
Georgia county and Specialty Medical Societies Executives

I, Charles Wilmer, wish to seek a first term as treasurer of the Medical Association of Georgia. I joined the Medical Association of Atlanta in 2011 as well as the Medical Association of Georgia. I have been an active member of both organizations since joining. I became president of the Medical Association of Atlanta in 2017 and have been on the board since that time. I believe that Physicians are benefitted by working together to grow their practice, talent and innovation as a community. By working through their County Medical Societys and the Medical Association of Georgia, they are able to better protect their patients from predatory practices as well as reach for a higher understanding of good patient care. I serve on the Board of Directors of the Medical Association of Atlanta, Medical Association of Georgia, and work as an Alternate Delegate to the American Medical Association. I am a graduate of class VII of the GPLA.

I graduated from Amherst college and received my medical degree from the University of Virginia. I completed my internship and residency as well as fellowship at Emory University School of Medicine. I am board-certified in Internal Medicine, General Cardiology, and Interventional Cardiology. I am currently Section Chief of the Cardiology division of the Piedmont Clinic and founding member of the Piedmont Heart Institute.

I have co-authored three bills that are now law: The Good Samaritan law that protects the use of AEDs by bystanders in cardiac arrest, Distracted Driving, and HB 454 to stop "bait and switch" insurance fraud.

I ask for your support as MAG treasurer.

Sincerely,

A handwritten signature in black ink that reads "Charles I Wilmer". The signature is written in a cursive style and is positioned above a horizontal line.

Charles I Wilmer M.D., FACC, FSCAI
