

Patient-Centered Mental Health in Pediatric Primary Care (PPP)

A 3-day Virtual Interactive Training Course

This opportunity is made possible by a generous donation

Date: Friday, January 7 – Sunday, January 9, 2022

Audience: Pediatricians, Family Physicians, Nurse Practitioners & Physician Assistants practicing in the greater Atlanta, GA area

For more info contact: ppp@thereachinstitute.org

Course Description

This PPP course trains clinicians to diagnose and treat mental health conditions they see every day in practice. This program will teach you to manage the most common issues yourself, saving referrals to mental health specialists for complex cases. You'll leave the training with tools you can use immediately:

- Validated assessments to get data from patients and families
- Clinical guidelines for differential diagnosis
- Quick-reference medication guides
- Sample forms for referring patients to psychotherapy

Time Commitment

The PPP course has two components:

- A dynamic three-day, 16.25-hour interactive course focused on building skills and confidence in diagnosing and treating pediatric behavioral health problems.
- A six-month case-based follow-up program. Participants join 12 bimonthly, one-hour group conference calls with national primary care and child/adolescent psychiatry experts to solidify their learning
